There is attached a memorandum in response to Executives Conference inquiry as to what plans or provisions the Office of Defense Mobilization had made for the care of Bureau and Departmental personnel under emergency conditions in the [redacted] allocated to the Department of Justice in [redacted]

The recommendations contained in attached memorandum, which was prepared prior to the Director's decision to move the Bureau relocation site from [redacted] will, of course, have to be changed to comply with the new relocation plan.

RECOMMENDATION:

For your information.

Enclosure.

By memorandum 5-5-55 it was recommended that an appropriate discreet survey be made looking toward the relocation of appropriate gathering points outside Washington at which Bureau personnel after having been evacuated from Washington could register and receive messages.

In conjunction with the above memorandum the question was raised as to whether the Office of Defense Mobilization had made plans to absorb Bureau and Departmental employees and their dependents within the [ ] which had been allocated to the Department of Justice for relocation purposes. b7E

The Office of Defense Mobilization has allocated to the Department of Justice the counties of [ ]

[ ] The Office of Defense Mobilization has advised that it has made no provision for the care, protection or absorption of Department of Justice personnel or their families and that is a function which is the responsibility of Civil Defense. Mr. Terry Hartz, Director of Security, Federal Civil Defense Administration, has advised that the question of providing food, shelter and essential needs for evacuees is the responsibility of local Civil Defense organizations and that to date there has been little done by these organizations along this line. b7E

Insofar as the [ ] dependents of the [ ] scheduled for immediate relocation in an emergency are concerned, [ ] has made a survey of public housing facilities available in the [ ] area and has determined that there is a total of [ ] in the area which have a capacity in excess of the [ ] needed by the Bureau. It must be pointed out, however, that the Bureau has made no commitment or arrangement for emergency use of these accommodations. [ ] merely ascertained what is available. It is believed that the dependents of the above [ ] should be advised that unless they have made other plans for their families, they may take them to the [ ] area and there attempt to locate emergency accommodations for them. ENCLOSURE

MAY 27 1955

b7E

As to Bureau personnel other than the [ ] and their dependents the Office of Defense Mobilization has advised that while the [ ] above mentioned, have been allocated to the Department of Justice for relocation purposes, they have no plan for providing the necessities of life for any evacuees within that area since it is the responsibility of local Civil Defense to absorb and provide for evacuees in any area. b7E

Arrangements have been perfected for the Bureau to take over [ ] in an emergency. We do have a direct line from the [ ] a

[ ] allocated by the Office of Defense Mobilization to the Department of Justice. It, therefore, appears logical that this site should be used as the focal point for Bureau personnel to register and receive messages should Washington be evacuated. b7E

The Washington Field Office is preparing a recommendation for a relocation site for that office other than [ ] however, it is believed that the Bureau should retain [ ] as a reserve relocation site even though Washington Field is permitted to find another relocation site.

RECOMMENDATION:

(1) That we prepare and distribute to the [ ] evacuees a list of the housing accommodations located by [ ] b7E

(2) That in distribution of the above list we indicate to the evacuees that the Bureau has made no attempt to obtain a commitment from the proprietors of the establishments because of the indefinite nature of the whole evacuation problem but that should conditions become sufficiently bad we could make an approach at that time and attempt to obtain a firm commitment from the proprietors of the establishments in question.

(3) That we plan to use [ ] as the focal registration and message center for those employees and their dependents who are not included within the initial [ ] evacuees. b7E

(Additional recommendation page 3)

(4) If the Director agrees to the above recommendations appropriate instructions to Bureau employees will be prepared and a communication will be directed to the Department advising that we would use [redacted] as the focal point for Bureau personnel rather than [redacted] as has been indicated by Mr. John Airhart, Relocation Coordinator of the Department. The Department is planning to use [redacted] as the rendezvous point for nonessential Departmental employees and their families.

Bureau War Plans Auxiliary space For S.O.G.

Mr. John Airhart, Relocation Coordinator of the Department, called me on May 18, 1955, to inquire whether the Bureau would consider having its nonessential personnel report to the same site [redacted] as the Departmental and Immigration and Naturalization Service nonessential personnel in time of an emergency. You may recall that Mr. Airhart had previously inquired whether we were going to have our nonessential personnel, that is personnel who are not scheduled for evacuation to our relocation site and their dependents, report to the [redacted] [redacted] set aside by Office of Defense Mobilization for Department of Justice personnel. These [redacted] I had told Mr. Airhart that our plans had not crystalized in this respect.

In answer to his inquiry today, I told Mr. Airhart that our plans are not yet complete relative to nonessential personnel and their dependents and that while it is possible that a gathering point may be established for them in this [redacted] area, it would not appear feasible to establish any community site with the Department inasmuch as it may be necessary for us to convert nonessential personnel into essential personnel at a moment's notice. Consequently, such arrangements as we make will probably require a site separate and apart from the Department.

Mr. Airhart stated that Mr. Tompkins had in mind proposing such a community site during the Attorney General's Conference at [redacted] this weekend; however, in view of his conversation with me, Airhart was going to suggest to Tompkins that Tompkins not raise this question at the Conference.

The attached memorandum reflects the status of our relocation planning for our employees.

Mr. Tolson noted on memorandum, entitled as above, dated 5/10/55, relative to the location of focal points for Bureau employees not scheduled for relocation and their dependents, and the care for dependents of employees to be relocated in an emergency as follows: "This should be promptly revised in light of proposed change to relocate at [ ] T." The Director noted, "yes, H&H"

There are three basic problems raised in connection with the relocation of personnel, they are as follows:

(1) The [ ] Bureau employees now scheduled for relocation in an emergency will go to the relocation site. In accordance with the Director's instructions, we are making a survey today of [ ]

[ ] and the areas surrounding these communities to ascertain if there is any installation within or near these communities which could be used for Bureau relocation. Every effort is being made to expedite this selection of a new relocation site for the Bureau.

(2) With reference to the dependents of the [ ] employees scheduled for relocation, the selection of a site to which they may be directed will depend upon where our relocation site is finally established. We will attempt to locate them within a reasonable distance of our emergency relocation site. This will be settled as soon as a relocation site has been fixed. We are in position to designate [ ] as the relocation point for these [ ] dependents as we still have an agreement with [ ] for its use during emergency periods.

(3) The problem of locating a focal point at which those employees not scheduled for relocation and their dependents may register, receive Bureau messages and leave forwarding addresses, will be solved and a point designated when the new relocation site has been designated.

*AW*

*CP*

*Test 5/26/55 only*

PROBLEM INVOLVING ENEMY DIPLOMATS (PRODIP)

The problem will commence with an assumed telephone call from the Department of State relocation site to Assistant Director A. H. Belmont at [ ] instructing that diplomatic and official representatives and their dependents from the enemy nations be taken into protective custody for repatriation and exchange.

A. Belmont will notify the Director immediately, orally, or, in his absence, the acting Director, and later confirm by memo.

B. Belmont or person designated by him will phone WFO relocation site at [ ] and instruct it to:

1. Communicate with the Bureau office at Baltimore by the quickest means available, and

2. Instruct Baltimore to radio\*FBI, [ ] within an hour giving Bureau the means by which and the exact time at which Baltimore received word from WFO's relocation site.

3. Message sent by Baltimore should read: "Re test message. Received message from relocated WFO by [ ] at [ ] a.m. (p.m.)."

C. No confirming teletype will be sent to WFO relocation site as part of this problem because of the need to rely on the ingenuity of outside teletype operators to make round-about connections and we cannot explain our "war-gaming" to them.

D. Belmont or person designated by him will phone New York Office and instruct them to:

1. Communicate with Philadelphia, and

2. Instruct Philadelphia to teletype FBI, [ ] within the hour giving the means by which, and the exact time at which, it received word from New York.

PROBLEM INVOLVING ENEMY DIPLOMATS (PRODIP)

3. Message sent by Philadelphia should read:  
"Re test message. Received message from New York by \_\_\_\_\_  
at \_\_\_\_\_ a.m.(p.m.)."

E. A confirming teletype will be prepared in the Espionage Section to be sent to New York immediately after the phone call to New York. It will read: "Re test message. Confirming telephone instructions to communicate with Philadelphia and instruct Philadelphia teletype FBI, \_\_\_\_\_ within an hour giving means by which, and exact time at which it received word from New York. Philadelphia teletype should read: 'Re test message. Received message from New York by \_\_\_\_\_ at \_\_\_\_\_ a.m.(p.m.).'"

b7E

F. At \_\_\_\_\_ appropriate memorandum will be prepared showing dispatch and receipt of above test communication. Since this is a Bureau operation only, we can assume telephone notification to Attorney General when the program is started and again when the Bureau's part in the program is completed. We can also assume telephone notification to the Secretary of State that the Bureau's part in the program has been completed. Confirming memoranda for the Attorney General and the Secretary will be prepared.

An air-tel has been prepared informing the Washington Field, Baltimore, New York and Philadelphia Offices regarding what is expected for this test.

At 12:05 P. M., May 24, 1955, SAC D. K. Brown and ASAC R. J. Lally telephonically contacted Agent Finn in reply to a request made by me on May 23, 1955, concerning the [REDACTED] ASAC Lally stated that the corporate records reflected the following:

According to ASAC Lally, [REDACTED]

All of the above names were checked through the indices of the Baltimore office and no record of any subversive or derogatory information was located concerning any of them. [REDACTED]

[REDACTED] there are no "bad" records in existence concerning the operation of it.

These names are being checked through the indices of the Seat of Government. Any derogatory information will be reported to you by separate memorandum.

RECOMMENDATION:

None. For your information.

ABF:ppp (8)

identity of such a possible relocation site is, however, being made a matter of record. We are following through Liaison to determine the final decisions regarding the relocation sites of ONI, G-2, and OSI as this is information that we must have to carry out our relocation plans.

RECOMMENDATION:

For your information, Liaison will follow with G-2, ONI, and OSI regarding the re-establishment of their relocation sites.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. MOHR

DATE: May 9, 1955

FROM : P. G. Travers

SUBJECT: DEFERMENT OF BUREAU PERSONNEL  
WAR PLANS

Tolson \_\_\_\_\_  
Boardman \_\_\_\_\_  
Nichols \_\_\_\_\_  
Belmont \_\_\_\_\_  
Barbo \_\_\_\_\_  
Mohr \_\_\_\_\_  
Parsons \_\_\_\_\_  
Rosen \_\_\_\_\_  
Tamm \_\_\_\_\_

Gandy \_\_\_\_\_

SYNOPSIS:

To implement our war plans, arrangements should be augmented with the various branches of the Armed Forces and the Selective Service System to insure that Special Agents and key clerical personnel of the Bureau are granted occupational deferments in the event of a national emergency. There exists presently an agreement with the various branches of the Armed Forces, except the Air Force, to defer all Special Agents who are members of the reserves in the event of an emergency. The branches of the Armed Forces maintain a current list of our Agents who are members of the reserves. The Air Force maintains no list, but will defer an employee at our request if he has been ordered to active duty. Our present policy for reservists is that any Agent actively participating in military training in the reserves, such as two weeks summer training, the Bureau will not request his deferment in the event he is called to extended active duty. We now request a deferment for an Agent from the local Selective Service System board if he has satisfactorily completed 8 weeks of service. If the local board refuses to grant such deferment, we will request the case be referred to the local Appeal Board. No case at the present time is sent to the Presidential Appeal Board, Agent appointments are not made for those applicants who are active in the reserves or whose induction in the armed forces is imminent.

RECOMMENDATIONS:

That the Liaison Section of the Domestic Intelligence Division contact the appropriate officials of Armed Forces and the Selective Service System headquarters for the purpose of ascertaining what procedure will be necessary to insure as far as possible deferment of our Special Agents and key clerical personnel in the event of a national emergency.

BUREAU WAR PLANS - EMERGENCY HEADQUARTERS FOR S.O.G.

### DETAILS:

In connection with the general War Plans for the Bureau, it is felt that certain steps should be taken and arrangements made with the various branches of the Armed Forces and Selective Service Headquarters, Washington, D. C., to insure that the Special Agents and key clerical personnel of the Bureau are granted deferments in the event of a national emergency.

### Background:

The policy concerning deferment of Bureau personnel during World War II was as follows: In July, 1940, officials of the Army, Navy, Marine Corps, and National Guard agreed that no Special Agent of the FBI holding a Reserve commission would be called to active duty in case of a national emergency. Further, these men would not be called for temporary duty training periods.

In July, 1941, the Navy advised that FBI men who held Reserve commissions must make request in writing if deferment from active duty was desired, and each case would be judged on individual merits. It was no longer possible to exempt all key men as the Navy needed key men.

Regarding requests for deferment of personnel from serving in the Armed Services under the compulsory draft, the Selective Service Headquarters advised that Special Agents, confidential index and file analysts, laboratory technicians, fingerprint experts, cartographers, physical directors, and code and radio technicians would be granted occupational deferments by the local draft boards upon request for same by the Director, FBI. Deferments would be made for periods of six months and it was necessary to renew request for such deferment at expiration of this period.

Arrangements were made through the National Headquarters, Selective Service System, and the local draft boards to stop voluntary enlistments in Army, Navy, and Marines by individuals who had been granted occupational deferment under the foregoing request. All applications for enlistment had to be approved by the local draft boards and when application was received from an individual who had been deferred for occupational reasons, the local draft board communicated with the Bureau which in turn advised that it desired the individual's application for enlistment not be approved and that he be continued in an occupational deferment status.

Applications for Women's Army Auxiliary Corps were not accepted without Bureau clearance.

During National Emergency which was declared in 1950, deferments were requested from local draft boards for Special Agents who had been in the Bureau's service for periods of 6 months or more. Cases concerning radio communications officers and certain laboratory technicians were judged on individual merit. Special Agents who were members of Reserve components were automatically deferred from active duty with exception of Navy, who judged each case individually. No requests were made for deferment for individuals who elected to remain in an Active duty status. No agents were called by Selective Service System; however, no blanket deferments for Bureau personnel could be made at that time since such arrangements were illegal.

Deferments were requested for clerical employees in Grades GS-6 and above from reserve components and National Guard and local draft boards.

In March, 1951, arrangements were made to provide that lists of Bureau personnel who were members of Reserve components of the Armed Services would be sent to the Army, Navy, and Marine Corps. Air Force requested no list as they canceled orders for active duty upon individual request from the Bureau. Monthly communications were forwarded to the above branches of the Armed Services setting forth names of Bureau personnel who should be added or deleted from the original lists. Lists for additions and deletions for clerical deferments were sent to the Department of Defense through the Liaison Section of the Bureau, and all branches of the service were included in one memorandum.

In connection with this deferment of members of reserve units, the Army, Navy, and Marine Corps established a system whereby Bureau personnel who were listed with them under these arrangements were automatically deferred. Most of the arrangements with Armed Forces and Selective Service for the deferment of our personnel were made through the Liaison Section.

#### Present Bureau Policy:

On July 20, 1954, the following policy was established concerning requests for deferment from active duty with reserve units and from military service under Selective Service System: No requests were made for clerical personnel, and requests were only made for Special Agents with 8 weeks service from the local draft board and the Appeal Board. If the Appeal Board denies the Bureau's request, no further action is taken. Special Agents who are members of the inactive reserves of the various branches of the armed services are still automatically deferred from active duty, and the Bureau continues to advise monthly the names of those individuals who should be added or deleted from the lists maintained by the individual branches of service. Agent appointments are not made to applicants who are active in the reserve units or whose induction in the armed forces is imminent.

This will record receipt of Copy Number 45 on  
May 20, 1955, and Copy Number 8 on May 23, 1955 of [redacted]

These two documents were received from Mr. B. Willis, Department of Justice. Mr. Willis advised that they were prepared by the Office of Defense Mobilization for use in communications between agencies in contacting their relocation sites.

Mr. Willis, in leaving these copies with SA McArdle, advised that it would be unnecessary to return either of them to the Department, however, the Department of Justice may find it necessary to ask for the use of Copy Number 45 for short periods of time at some time in the future.

RECOMMENDATIONS:

(1) Copy Number 8 of the above-entitled, be sent to the Bureau relocation site where it will be available for emergency use if necessary.

Should be sent to [redacted] in Defense Mobilization

Room at [redacted] *WU*

Received [redacted]  
Placed in [redacted]  
Room [redacted] 6/6/55

(2) That Copy Number 45, captioned document, be retained at Seat of Government in order to permit the Communications Section to become entirely familiar with the contents thereof.

By memorandum dated May 9, 1955, from Mr. Travers to Mr. Mohr, it was recommended that the Liaison Section contact appropriate officials of the Armed Forces and Selective Service System Headquarters in an effort to ascertain what procedure would be necessary to insure as far as possible deferment of Bureau Special Agents and key clerical personnel in the event of a national emergency.

On May 16, 1955, Lieutenant Colonel G. R. Evenson, Office of Director of Military Personnel, U. S. Air Force, advised SA D. J. Sullivan that the present procedure followed by the Bureau as far as the Air Force is concerned should be continued. He stated he saw no problems involved in this present procedure.

On June 1, 1955, Lieutenant Colonel Paul M. Hart, Reserve Components Branch, G-2, Department of the Army, advised SA John F. Sullivan that the present system followed by the Bureau regarding deferment of Bureau personnel should be continued.

On June 1, 1955, Lieutenant Commander Adrian V. Lorentson, Bureau of Personnel, U. S. Navy, advised SA Walter F. Woods that no change in the present procedure followed by the Bureau in requesting deferments should be initiated.

On May 31, 1955, Major General Lewis B. Hershey, Director, Selective Service System, advised SA D. J. Sullivan that he thought that the present system used by the Bureau and the Selective Service in obtaining deferments for Bureau

Memorandum for Mr. Belmont, 6/2/55

personnel was working satisfactorily and he saw no need for changing. General Hershey further advised for the Bureau's information that he anticipated in the near future legislation which would place individuals in the age group from 34 on in a more or less permanent deferred category. He also advised that individuals between the ages of 24 and 34 would not be called for service for a period of from 18 to 24 months after the declaration of a national emergency. With reference to individuals in this group, General Hershey stated that he did not anticipate that the Bureau need worry that any Bureau personnel would be called. General Hershey anticipated that individuals in the age group 18 to 24 would suffice to take care of the immediate needs in the event of a national emergency. He stated that he did not think that Bureau personnel on duty as of the time of the declaration of the emergency would be called to duty.

ACTION:

That this memorandum be forwarded to the Administrative Division.

A Washington City News Service release of 5/31/55 indicated that, while the President and top Government officials will leave Washington for the three-day test beginning at noon June 15, 1955, and closing 6 p.m. June 17, 1955, no Cabinet members will be with the President, but they will go to their own particular relocation sites and that while this national test is underway there will be Civil Defense tests in 50 other American cities.

Mr. John Airhart, relocation co-ordinator of the Department, on 6/1/55 advised that he has recently learned that the National Security Council is planning to hold a Cabinet level meeting at [redacted] during the early stages of the relocation test and that under these circumstances Mr. Airhart will propose to the Attorney General that he, the Attorney General, go directly to [redacted] and thereafter proceed to the Departmental relocation site at [redacted]. Mr. Airhart advised that to that end he has arranged a private office for the Attorney General at the [redacted] site.

Mr. Airhart further advised that for purposes of the June 15 test, the Attorney General will provide his own transportation to the relocation site and that no guard or protective staff of the FBI will be necessary. Mr. Airhart also stated that the Attorney General has set aside the three days, June 15, 16, and 17, for his participation in Operation Alert, 1955, and that it is quite likely that he may visit the FBI relocation site at some time during the three-day period.

Mr. Airhart stated the foregoing has not as yet been approved by the Attorney General but he is certain that Mr. Brownell will go along with this thinking and that he will confirm these plans to the FBI as soon as the Attorney General has agreed.

Mr. Airhart further advised that he has learned from the Office of Defense Mobilization (ODM) that two ODM inspectors have been assigned to the Department of Justice for purposes of this test. One will accompany the Department and the other will accompany the FBI to their respective relocation sites.

With reference to the Civil Defense tests in 50 other American cities, Federal Civil Defense Administration advised Bureau Liaison Agent this date that some of the cities have not been and will not be advised that they are to take part in

TO : MR. A. H. BELMONT

June 2, 1955

FROM : MR. R. R. ROACH

SUBJECT: DREW PEARSON BROADCAST  
MAY 21, 1955

Reference is made to your memorandum to Mr. Boardman dated May 23, 1955, regarding the Drew Pearson broadcast of May 21, 1955. Pearson, in commenting on the warning system for the approach of enemy bombers, stated that radio stations will require thirty minutes to switch to emergency frequencies although the switch-over could be made in one minute if Civil Defense had the money to build equipment.

On June 1, 1955, Liaison Agent Bates telephonically contacted Mr. Harry Roderick of the Federal Civil Defense Administration (FCDA) regarding this matter. Mr. Roderick pointed out that the alerts to radio stations during emergencies are under the control of the Federal Communications Commission (FCC) and the Air Force. He commented that the delay in notifying radio stations to switch to emergency frequencies had been apparent to FCDA in the past. At the present time, the Air Force and FCC do not have "hot line" circuits to all radio stations. This means that to alert all stations there must be a system of chain calling, that is, one station will receive the call and then will relay it to other stations. Therefore, there is some time delay. Mr. Roderick commented that FCDA was somewhat concerned about this but in discussions with the Air Force and FCC it was felt that this delay would be about fifteen minutes.

ACTION:

None! This is submitted for your information.

SUBJECT: WAR PLANS - OPERATION ALERT  
1955 (June 15, 16, 17)

Although Office of Defense Mobilization (ODM) has indicated that each agency should participate in the alert exercise with its full complement of employees scheduled for an actual relocation, the Attorney General on May 19, 1955, approved Bureau participation with only the actual number of people who will be required to carry out our test problems. It is estimated that [redacted]

[redacted]  
 the desired 24-hour coverage. If the Director approves, in order that as many of our personnel as possible may gain experience from this test, we will rotate on a daily basis as many of our clerical and supervisory personnel as is feasible. The communications staff and the Bureau officials taking part in the test will remain at [redacted] for the full three-day period.

The exercise, beginning at noon on June 15, will start with a general public alert. All [redacted] Bureau employees scheduled for relocation in an actual emergency will be notified in accordance with established notification procedures and will proceed to the corridor outside [redacted] where they will be checked off. Those scheduled to go to [redacted] or to their personally owned cars, per previous arrangement. All other employees will return to their desks unless Civil Defense orders the temporary evacuation of all Federal and district buildings and the Attorney General desires that we so participate. To date we have received no official instruction on this.

ENCLOSURE  
 92- Upon arrival at [redacted] we will carry out the problems which are set forth in detail in the attached memorandum comprising JUN 9 1955 communications tests with all field offices on simulated security situations. They also involve contacts with our Liaison Representatives who will be stationed with designated agencies. Although contacts with Liaison Representatives are a part of several problems which will be worked out each shift, the actual liaison contacts will be held to one per shift with the pertinent Liaison Agent.

Bureau War Plans - Emergency Headquarters For S.O.G.

Memorandum for Mr. Boardman

We have not yet been informed by ODM of the sequence of nation wide activity within the framework of which the participating agencies of the Government will be expected to perform their so-called essential wartime functions. The Bureau's problems will be operated on a shift-by-shift basis. In addition to handling the exercise problems involved in the test, the supervisory personnel of the [redacted] who will be participating in the test at [redacted] will, if time permits, review correspondence from the field and, where necessary, make file reviews in connection with the Security Index survey which is currently in progress at the Seat of Government. This is a performance of regular Bureau work and would be in compliance with ODM instructions that participating agencies should perform such normal functions in addition to their exercise problems as is feasible. The necessary files and correspondence will be taken to [redacted] for this purpose.

[redacted]

b7E

b7E

If and when the ODM submits the sequence of operational activity for this exercise, it will be carefully reviewed and appropriate revisions, where necessary, will be made in our plan. All phases of this test will be carried out in as realistic a manner as is possible under the circumstances in order that we may gain as much experience as is possible from this test.

RECOMMENDATIONS:

(1) That we conduct this test by retaining the officials and communications staff at [redacted] and bring in a new subordinate staff (clerks, stenographers and Agent supervisors) for each 12-hour shift, thus acquainting additional personnel with relocation activity.

b7E

(2) If the problems outlined in the attached memorandum are approved the field will be appropriately notified in advance of the test.

There is submitted herewith a plan for the three-day relocation test (June 15, 16, 17). There are, however, certain unknown factors which will affect any plans that are devised at this time. The Office of Defense Mobilization (ODM), which organization is supervising this test exercise, has not as yet completed the "sequence of operational play for the exercise" which is the ODM's actual plan of operation. In addition thereto, although G-2, ONI, OSI, CIA, State Department, and the White House have indicated that they have devised no problems which would involve the FBI in any way, Mr. William Boleyn, Bureau of the Budget, who will inspect our operations as an ODM representative, has indicated that certain problems will be presented to each agency participating in the test. Mr. Boleyn had no information on the problems which may be presented to the FBI. Mr. John Airhart, Relocation Coordinator of the Department of Justice, has indicated that as yet the Department has no problem which would involve the FBI; however, he stated that they have not completed all their problems which they plan to use during the course of the operation. Problems may also be presented by other agencies growing out of assumed damage assessments to the various cities throughout the United States. Mr. Airhart has indicated that the Attorney General has set aside the entire three days for his participation in this test. He anticipates that the Attorney General will be at [redacted] for a Cabinet level meeting at 12 Noon or shortly thereafter on Wednesday, June 15, and that thereafter he will be at the Department relocation site, [redacted]. Mr. Airhart advised that he was certain that sometime during the three-day period, the Attorney General would visit the FBI relocation site at [redacted] and that he, Airhart, also anticipated visiting [redacted] sometime during the test to observe operations since he had been instructed by the Attorney General to prepare an over-all summary of Departmental operations during this test. b7E

BACKGROUND

The joint Office of Defense Mobilization-Federal Civil Defense Administration instructions reflect that the purpose of the test is to

RECORDED-92

66-17381-809

JUN 9 1955

Memorandum for Mr. Boardman

test the operational readiness of Federal agencies to carry out essential wartime functions from their respective relocation sites. Each agency is to participate in the test of its essential functions with the maximum number of personnel scheduled for relocation, the number of personnel to be determined by the head of the agency. The test is to start at 12 Noon (Eastern Daylight Saving Time) June 15, and to continue on a full-time operation until 6 p.m., June 16; and from 6 p.m. June 16, to 9 a.m. June 17, a skeleton communications staff is to be available. Full operations are to resume at 9 a.m. June 17, and continue to 6 p.m. that date, with the last few hours of the day being devoted to the preparation of an evaluation of the test. Each agency participating was to submit an outline of problems and plans to handle during the course of the test.

By memorandum dated May 17, 1955, the broad outline of problems involving notification to essential personnel, assembly of personnel, transportation of personnel to the relocation site, a test of the effectiveness of communications established at our relocation site, and testing certain aspects of our essential wartime security programs, the Attorney General was advised that while this outline was being submitted to him for relay to ODM, per his request, we did not plan to engage in any widespread ramifications of the problems involving the detention of enemy aliens and the detention of Security Index subjects, but would propose the problems to selected field offices using substituted messages for implementation of the programs. The Attorney General's comments were requested as to whether this Bureau should participate with the maximum number of personnel scheduled for relocation or in view of security requirements, with only those employees needed to carry out the problems involved. The Attorney General returned the original of Bureau memorandum of May 17, 1955, and indicated thereon that in view of security requirements we should participate with only those personnel needed to carry out the problems involved.

#### PERSONNEL

To insure continuity of the over-all operation and complete and proper handling of the Bureau problems as well as the problems which may be presented by other agencies, at least those employees and officials at a policy-making level representing each Section and Division participating in this test, should remain at the relocation site for the entire period.

three-day period, a better showing for the Inspector present is

Memorandum for Mr. Boardman

anticipated and it is believed that it would enable the Bureau to more expeditiously and effectively handle the problems presented to the Bureau by outside agencies. Other than the Bureau officials, employees at a policy-making level and communications employees, all others taking part in this operation could rotate on a day-to-day basis. This would include stenographers as well as clerical and Agent supervisory personnel. This rotation of personnel would take place on an approximate 12-hour basis, which is the schedule we anticipate working in actual emergency conditions.

Those people who will remain at [redacted] during the entire three-day period include both male and female personnel. [redacted] will build a temporary but secure partition across the third floor corridor at a point which will allow ample sleeping and bathroom accommodations for the female employees at one end of the building and similar facilities for the male participants at the other end of the corridor. All bathroom facilities will be clearly marked for male or female occupancy.

It is contemplated that Messrs. Nichols and Boardman will remain in Washington in charge of Bureau operations at Seat of Government (SOG). However, a courier service between Washington and [redacted] will be set up to insure that the Director, Mr. Tolson and other officials who may be at [redacted] will have access to Bureau records, get correspondence which they must necessarily handle, and to deliver to the relocation site such files and records as will be needed during the test. There will be no Mail Room or Reading Room set up at [redacted] for the purposes of this test. All mail designated for outside SOG will be returned to Washington by courier service and handled through the Bureau Mail Room in Justice Building.

Memorandum for Mr. Boardman

It is estimated that a total of [ ] people plus the Director and Mr. Tolson will be needed to carry out the Bureau's problems and handle any incoming requests from other agencies for any [ ]

b7E

[ ] In addition thereto Mr. Boardman has indicated that he would like Mr. Scatterday and one of the clerical employees in his office to be at the relocation site during one of the three days of operation. Mr. Mohr has indicated that he and his secretary would be at the relocation site during a portion of the exercise.

#### THE EXERCISE

The exercise will begin by receipt of a simulated alert on public sirens and over the building alerting system. Upon receipt of the alert the previously established Chain of Command Notification system will be placed into effect and for purposes of this alert it will include notification to the Attorney General, if available, and to the first two available in the Departmental Chain of Command. All [ ] Bureau personnel or their alternates scheduled for relocation in an actual alert will assemble in the corridor outside [ ] where they will be checked in and accounted for. Those who are scheduled to go to [ ] for purposes of this test with the initial group will proceed to their personally owned cars, if they have previously indicated they would use them, others will be directed to the [ ] which will take the participants to [ ] for this test. All other employees will be instructed to return to their respective desks. There is indication that Civil Defense will require all Federal and district buildings to be evacuated for a short period of time following the simulated alert. Upon receipt of official information on this point, which we understand is forthcoming from the Department, a separate memorandum will be submitted. Those Liaison Agents scheduled to relocate with the agencies with which they normally do business will proceed to the relocation site of those agencies which are participating in this test operation. Each Agent who will accompany another agency has been given the telephone and teletype numbers of the Bureau's relocation site at [ ] and the telephone and teletype numbers of agencies participating in the test are set forth in [ ]

b7E

In addition to those problems which will be presented to us by other agencies participating in the program, the following problems will be carried out by Bureau employees in the relocation site during June 15, 16 and 17:

## Internal Security Section

### Exercise Problems And Work

Assumption: No attack has taken place, that Washington is intact, but situation is critical and a partial relocation has been ordered.

There are listed hereinafter the simulated exercise problems of the Internal Security Section as well as actual Bureau work which will be performed on the days indicated. All messages to the field regarding the exercise problems will be simulated for security reasons and upon receipt of replies from the field, this section at the relocation site will fully carry out the problem as if it was a real one insofar as action within the Bureau is concerned. In addition to the simulated problems which will be carried out over the exercise period, active Bureau mail concerning the Security Index review presently being conducted in the field will be taken or delivered to [redacted] where it will be processed in the same manner as being presently done at the Bureau. All personnel when not actively engaged in the exercise problems will be fully occupied in handling the Security Index review memoranda.

This processing will include the preparation of memoranda and communications to the field when necessary. In conducting such reviews it will be necessary to have available the files in all instances where the field is recommending retention of a Security Index subject's name in order that the file can be completely reviewed before approval. This will necessitate the movement of files to and from [redacted] by messenger service.

b7E

In addition, one clerical employee is scheduled for participation in the exercise. When this employee is not engaged in matters relating to the simulated problems she will be actually checking the duplicate Security Index at [redacted] against the current Security Index list prepared by the Statistical Section. This duty will enable the employee to be fully occupied and at the same time performing necessary Bureau work.

WEDNESDAY, JUNE 15, 1955

1. Warning To Field Offices

Immediately upon arrival at [ ] a warning communication will be dispatched to all offices to simulate planned procedures in advising the offices that a critical emergency exists. No reply will be necessary. In order to test communications, the communications will be transmitted by teletype, radio or telephone. The following message will be sent: "Uncap. This is a test of communications under emergency conditions. No reply is necessary re this test."\*

b7E

2. Institution Of Emergency Detention Program

A. Contact will be made with the Attorney General at [ ] for advice as to whether the following documents have been signed which would institute the Emergency Detention Program:

1. Presidential Proclamation suspending the Writ of Habeas Corpus and authorizing arrests and/or searches under the Program.
2. Master Warrant of Arrest authorizing the arrest of all individuals listed in the Security Index.
3. Master Search Warrant authorizing the search of premises presently listed for search under this warrant.
4. Instructions to the Director to proceed with the arrests and/or searches under the Program.

The contact with the Attorney General of course will be simulated for security reasons and will merely test emergency communications. If we are unable to reach the Attorney General attempts will be made to contact any one of the first five individuals in the chain of command of the Department at [ ]

b7E

\*After communications are sent a memorandum will be prepared reflecting the time necessary to make contact with and transmit the message to all offices.

The institution of the Emergency Detention Program as outlined in the Attorney General's Portfolio will be based on the execution of the four documents mentioned above which will be the authority needed by the Bureau to proceed with the arrests and/or searches.

B. From [ ] contact will be made with the Statistical Section in the Identification Building to request the immediate preparation of an up-to-date list of Security Index subjects. Two lists will be prepared; one will list all Security Index subjects alphabetically, except those in the Special Section of the Security Index, and the other will list all Security Index subjects by field office, except those in the Special Section. The Special Section contains separate breakdowns for United States Government Employees, Foreign Government Employees, United Nations Employees, Espionage Subjects and Pro-tito Yugoslavs.

b7E

[ ] It will be requested that the lists be delivered to [ ] as expeditiously as possible and a check will be made as to the time required to prepare the lists and deliver them to the relocation sight.

C. A-list of the premises scheduled for search under the Master Search Warrant will be available at [ ] The identities of these premises are also in the possession of the Department.

D. After contact has been made with the Attorney General and it has been simulated that the Emergency Detention Program has been authorized, a message will be sent to all offices to simulate instructions to start the Emergency Detention Program. The following message will be sent:

[ ]

b7E

All offices will be specifically advised in the communication as to the means of communication by which they should reply. This will be broken down equally to test the three methods. \* During this test it will be necessary to reach distant offices by radio by means of relaying the message from [redacted] inasmuch as the [redacted]

Upon receipt of the replies from the fifty-two offices a memorandum will be prepared for the Director showing the times the messages were received in each field office, the times attempts were made to recontact [redacted] and the times the messages were actually received at [redacted]

b7E

\*Telephone, teletype or radio.

3. Subjects in the Special Section of the Security Index

Upon receipt of the up-to-date Special Section of the Security Index list the following action will be taken:

The Espionage Section will be advised of the identity of foreign Government employees, United Nations employees, Espionage subjects and pro-Tito Yugoslavs.

The Espionage Section will determine the identities of the foreign Government employees who are employed by enemy nations in order that their names may be included under the Master Warrant of Arrest. Foreign Government employees on the Security Index who are employees of friendly nations will be presented to the State Department for advice re the arrests. This will be simulated by the contact from [redacted] to the Liaison Agent assigned to the State Department provided State Department representatives are not at [redacted]. The Espionage Section will simulate advising the State Department of the identity of United Nations employees who will be apprehended and whose names will be included in the Master Warrant of Arrest.

b7E

The Espionage Section will determine the identities of Espionage subjects in the Special Section who can be arrested without interfering with active Espionage cases.

The Espionage Section will simulate consideration of pro-Tito Yugoslavs in the Special Section by contact with the State Department to determine Tito's position in emergency and the action regarding arrests to be taken.

All the above situations will be simulated and no facts will be given to the State Department other than a communications test with our Liaison Agent.

The Internal Security Section will simulate advising all Government agencies through appropriate liaison communications tests to simulate the action that we would take under an actual emergency in advising that the United States Government employees will be apprehended.

4. Movement of Special Agent Personnel

A memorandum will be prepared for Mr. Belmont furnishing a copy of the latest Security Index Statistical List for field offices for routing to the Administrative Division for their use in case Special Agent personnel must be reallocated due to emergency conditions. It is not contemplated that Special Agent personnel will be reallocated in view of the fact that field offices are using police officials to make arrests. However, an actual attack or emergency situation might precipitate such a necessity.

*help*

5. Sabotage-Communist Infiltration of Labor Section

A memorandum will be prepared recommending the setting up of a new Sabotage-Communist Infiltration of Labor Section and personnel assigned to this matter will prepare teletype instructions for field offices regarding possible sabotage and advising all offices to make arrangements to keep in contact with appropriate officials at key facilities, Procli (Protection of Classified Information) plants, Prosab (Protection of Strategic Air Command Bases) bases and military installations in order that sabotage matters can be promptly reported to the Bureau. This work will only be simulated and no communications on the point will leave

[REDACTED]

THURSDAY - JUNE 16, 1955

6. Prominent Individuals in the Professional Fields

A memorandum will be prepared listing the thirty individuals concerning whom we have had correspondence with the Department as to inclusion of their names in the Security Index. Seven of the individuals are not in the Security Index and we have been following the Department for advice as to whether their names should be included. Twenty-three of the individuals were approved for the Security Index by the Department prior to the adoption of the new criteria for the Security Index. We have reviewed the

b7E

twenty-three cases in the light of the new criteria, have furnished a memorandum to the Department in each case advising as to whether we believe the subversive activities of the individuals come within the new criteria and requesting the Department's advice in each matter. To date no reply has been received.

The memorandum will recommend to Mr. Belmont that these thirty specific cases be taken up with the Department for advice concerning arrests. The actual contact with the Department will be simulated by a telephone contact to the Department's relocation center at [redacted]

b7E

7. Security Index Subjects Out of the Country

A list of the names of individuals on the Security Index who are "out of the country" will be prepared including birth dates, race, sex and office of origin. This list will be prepared for transmittal to all offices by airtel to advise them that the individuals are "out of the country;" that offices having ports of entry of any type should furnish the list to the Immigration and Naturalization Service and Customs offices in order that appropriate stops can be made; that offices of origin should immediately determine if the subject has returned to this country and that if an individual is identified by any office, immediate arrest should be made but that if there is a question as to identity, the checking office should immediately request for the identifying data from the office of origin and advise the Bureau.

8. Special Problem at [redacted]

The city of [redacted] will evacuate under the exercise plan. The [redacted]  
[redacted]

b7E

test Problem will not be given to [redacted] After such contact, [redacted] will be instructed to telephonically advise the Bureau at [redacted]

- (1) The time the [redacted] message was received.
- (2) The time calls were placed to G-2, OSI and ONI.
- (3) The time each agency was contacted.
- (4) The time [redacted] first attempted to recontact [redacted] by telephone.

b7E

B. Upon receipt of the telephonic reply from the [redacted]  
[redacted]

C. The subject's Security Index card (a dummy card will be placed in the Security Index) will be removed from the Special Section of the Security Index. Notation will be placed on the back of the Security Index card indicating the date of the apprehension. The card will be refiled in a new section of the Security Index marked "Apprehension Subjects" under a heading "United States Government Employees." The filing of the Security Index cards for subjects apprehended will be handled in the same manner as the regular Index is handled today.

9. Special Problems at Boston, Miami, New Orleans and San Francisco

An arrest problem will be sent to the Boston, Miami, New Orleans and San Francisco Offices to simulate the arrest of regular subjects in the Security Index. Problems will be sent by teletype advising that it is a test of communications and that those offices should actually conduct a test of contact with representatives of ONI and Coast Guard where representatives are located in their divisions and submit replies by teletype furnishing the same information concerning times of contacts as indicated under the [REDACTED]

Dummy Security Index cards will be handled in the same manner as outlined in the [REDACTED]

10. Availability Checks With Field Offices

The following field offices will be contacted during the day by radio, telephone or teletype and requested to make actual availability checks of all Special Agent personnel. The request for such a check will be made of the Atlanta, Cincinnati, Kansas City and Minneapolis Offices during the regular working hours and a check of the Anchorage, Seattle, Denver and San Diego Offices during the evening hours.

Replies will be requested by the same type of communication by which the original message was sent showing in each instance:

- (1) The time the message was received in the field office.
- (2) The time required to contact [REDACTED] of the Special Agent personnel in headquarters city.
- (3) The time required to contact [REDACTED] Special Agent personnel in the headquarters city.
- (4) The time the first attempt to recontact [REDACTED] was made.

b7E

An over-all memorandum showing the results of the above availability checks will be prepared.

11. Statistics Re Arrests During the Day

A memorandum will be prepared for the Director at the close of the day reporting the identities of individuals arrested during that period. A copy of this memorandum will be designated for Mr. Nichols for his information. Subjects whose names are listed in the Special Section of the Security Index will be so identified.

In addition a memorandum will be prepared for the Attorney General furnishing the identities of the individuals apprehended during the day. This memorandum will be actually prepared but, of course, will not be disseminated from [redacted]

FRIDAY - JUNE 17, 1955

12. Special Problem at [redacted]

An arrest problem will be transmitted to [redacted]

On receipt of a reply from [redacted] contact will be made with our Liaison Representative for him to [redacted] at its relocation site. This Problem, of course, will be entirely simulated insofar as information going outside of the Bureau is concerned.

b7E

Dummy Security Index cards will be handled in the same manner as outlined in the [redacted]

13. Special Problems at Detroit, Chicago, and Pittsburgh

An arrest problem will be sent to Detroit, Chicago, and Pittsburgh to test teletype communications. The offices will be instructed to make test communications with ONI, G-2 and INS. Replies will be submitted furnishing the same information concerning times of contacts as indicated under the [redacted] (#8 above).

On receipt of replies, the dummy Security Index cards will be handled in the Security Index as has been indicated above.

14. Statistics Re Apprehensions Made to Date

Upon the receipt of the replies of all arrests simulated for this date, memoranda will be prepared for the Director and the Attorney General advising of the total number of arrests that have been completed under the test program as well as all identities of all individuals apprehended to date. A copy of the memorandum to the Director will be immediately routed to Mr. Nichols for his information.

15. Over-All Evaluation of the Program

The complete over-all evaluation of the three-day exercise will be made by the Internal Security Section.

Espionage Section Problems

The Espionage Section problems will fall in two categories. First are the intra-FBI communications tests. These will be repeated on each shift with different offices.

b7E

The communications problems to be carried out on each shift with Bureau field offices are as follows:

b7E

During the five shifts, the following offices will participate: For the day shift on June 15, Boston, Albany, Buffalo and Cleveland. For the night shift of the 15th, Detroit, Indianapolis, Cincinnati, Louisville. For the day shift on the 16th, Knoxville, Memphis, Little Rock, Oklahoma City. Night shift, 16th, Dallas, San Antonio, Houston, New Orleans. Day shift, June 17th, Chicago, Milwaukee, Minneapolis, Omaha.

\*All these agencies might not be notified in reality but this offers communication test for Liaison.

\*\*AG will be notified if at  otherwise, notification simulated.

b7E

2. Problem involving special section of Security Index. This problem will begin on each shift with an assumed phone call from a field office to the Bureau at [redacted] requesting authority to take into custody a Security Index subject in the special section (Espionage). The field office reasons are:

b7E

b7E

Offices which would participate in this communications test are as follows: Day shift, June 15, New York. Night shift, June 15, Philadelphia. Day shift, June 16, Baltimore. Night shift, June 16, Chicago. Day shift, June 17, Los Angeles.

3. Problem involving investigation by field of [redacted] This problem will begin on each shift with the assumed receipt of a phone call to Mr. Belmont from ONI, advising of the [redacted]

[redacted] will communicate with the Bureau Liaison representatives stationed with [redacted] [redacted] furnishing them simulated information regarding the apprehension. The information will also be communicated to the Attorney General and all oral reports confirmed by memoranda.\*\*

Offices which would participate in this communications test will be: Day shift, June 15, [redacted] to Miami; Savannah to [redacted] Night shift, June 15, [redacted] to Seattle; Portland to [redacted] Day shift, 16th, [redacted] to Norfolk; Charlotte to [redacted] Night shift, 16th, [redacted] to San Diego; Los Angeles [redacted] Day shift, 17th, [redacted] to Philadelphia; Newark to [redacted]

The following problems will be those which arise from a specific notification by the [redacted]

A. [redacted] the Department of State relocation site to Assistant Director A. H. Belmont at [redacted] instructing that [redacted]

\*\*All these agencies might not be notified in reality but this offers communication test for Liaison.

\*\*AG will be notified if at [redacted] otherwise, notification simulated.

A. Belmont will notify the Director immediately, orally, or, in his absence, the acting Director, and later confirm by memo.

B. Belmont or person designated by him will phone WFO relocation site at [redacted] and instruct it to:

1. Communicate with the Bureau office at Baltimore by the quickest means available, and

2. Instruct Baltimore to radio FBI, [redacted] within an hour giving Bureau the means by which and the exact time at which Baltimore received word from WFO's relocation site.

3. Message sent by Baltimore should read: "Re. test message. Received message from relocated WFO by [redacted] at [redacted] a.m. (p.m.)."

[redacted]

C. No confirming teletype will be sent to WFO relocation site as part of this problem because of the need to rely on the ingenuity of outside teletype operators to make round-about connections and we cannot explain our "war-gaming" to them.

D. Belmont or person designated by him will phone New York Office and instruct them to:

1. Communicate with Philadelphia, and

2. Instruct Philadelphia to teletype FBI, [redacted] within the hour giving the means by which, and the exact time at which, it received word from New York.

3. Message sent by Philadelphia should read:  
"Re test message. Received message from New York by \_\_\_\_\_  
at \_\_\_\_\_ a.m. (p.m.)."

[REDACTED]

E. A confirming teletype will be prepared in the Espionage Section to be sent to New York immediately after the phone call to New York. It will read: "Re test message. Confirming telephone instructions to communicate with Philadelphia and instruct Philadelphia teletype FBI, [REDACTED] within an hour giving means by which, and exact time at which it received word from New York. Philadelphia teletype should read: 'Re test message. Received message from New York by \_\_\_\_\_ at \_\_\_\_\_ a.m. (p.m.).'"

F. At [REDACTED] appropriate memorandum will be prepared showing dispatch and receipt of above test communication. We will furnish telephone notification to Attorney General when the program is started and again when the Bureau's part in the program is completed. We will furnish telephone notification to the Secretary of State that the Bureau's part in the program has been completed. Confirming memoranda for the Attorney General and the Secretary will be prepared. b7E

5. At the same time that problem four is in operation, the Espionage Section will prepare for transmittal to the Attorney General and the Secretary of State a [REDACTED]

[REDACTED] We have in the vital records stored at [REDACTED] a current listing [REDACTED]

[REDACTED] have been furnished to the Department of State and the Department of Justice. [REDACTED]

[REDACTED] the Attorney General and the Secretary of State [REDACTED]

[REDACTED]

\*AG will be notified if at [REDACTED] otherwise, notification simulated.

6. The Espionage Section personnel will utilize any breaks in the problems set forth above to review the case files of certain espionage subjects actually carried in the special section of the Security Index. Periodically these files are reviewed to determine whether the subject should be continued in the special section, placed in the main Security Index, or whether the card should be canceled. The Records and Communications Division will be requested to send to FBI, [redacted] approximately twenty-four of these files on the morning of June 15.

WAR PLANS - OPERATION ALERT, 1955

66-17581 ✓  
Federal Civil Defense Administration has indicated that 50 cities throughout the United States and its territories will participate in Operation Alert, 1955 (June 15, 16, and 17). You are to advise by return Airtel as to the planning taking place in your city for this exercise. You should include therein whether you will be required to relocate during the test and if so what arrangements, if any, have been made to occupy your site and indicate what communications facilities will be immediately available to you should the Bureau find it necessary to make contact with you at the emergency site.

At approximately 3:30 p.m., 6-1-55, Mr. John Airhart, Relocation Coordinator for the Department of Justice, telephonically advised SA McArdle that Mr. William Boleyn of the Bureau of the Budget was in his office. Mr. Airhart advised that Boleyn will represent the Office of Defense Mobilization and the Bureau of the Budget as the inspector of the FBI relocation test on June 15, 16, and 17, 1955.

Mr. Boleyn advised McArdle and Airhart that he has been handling the Department of Justice and FBI accounts at the Bureau of the Budget and is known to Assistant Director Mohr and Inspector Callahan. He further advised that he will have to stay with the FBI during the test and that while there he will be interested in observing, among other things, our relocation plans; the manner in which we conduct our essential wartime functions under sustained alert conditions and our ability to conduct test problems under attack conditions. He stated that he will be interested in whether or not we will be able to carry out our problems effectively and if not, why not. Mr. Boleyn indicated that between now and June 15, he would like to meet with the official in the FBI who is responsible for the over-all coordination of our emergency plan and, at that time, would make known more detailed information as to the specific points in which he would be interested.

Mr. Boleyn was advised that unfortunately the Assistant Director, under whose supervision our emergency plan was being developed, was out of town, but on his return, arrangements would be made for them to meet and discuss the problems involved. Mr. Boleyn advised he could be reached on Code 189, extension 497.

## ACTION:

Mr. Boleyn will be called and appointment arranged when Mr. Belmont returns to Washington.

In a memorandum to you dated June 1, 1955, captioned "War Plans - Operation Alert 1955 (June 15, 16, 17)," I advised you that Mr. William Boleyn of the Bureau of the Budget, who handles the Department of Justice and FBI accounts at that agency, will represent the Office of Defense Mobilization and the Bureau of the Budget as the inspector of the FBI relocation test on June 15, 16, and 17, 1955. You were also advised that Mr. Boleyn desires to discuss plans for that operation with me. In connection with that, Mr. Tolson has requested a memorandum be prepared concerning Mr. Boleyn.

Memo to Mr. Boardman

Re: William Arthur Boleyn  
Bureau of the Budget

On July 13, 1954, Assistant Director J. P. Mohr accompanied Mr. Boleyn and Messrs. Joe Eigenmann and John Clinton of the Bureau of the Budget and Mr. Bernie Schmid of the Department of Justice on a tour of Bureau facilities at [redacted]. These individuals were very favorably impressed with the Bureau's setup at [redacted] and Mr. Boleyn was particularly impressed with [redacted] and the clean and neat manner in which everything was maintained there. (62-18217-391)

b7E

Assistant Director Mohr also personally took Mr. Boleyn and Messrs. Eigenmann and Clinton, also of the Bureau of the Budget, on a tour of the Bureau's facilities in Washington on August 3, 1954. At that time the above individuals indicated that they enjoyed their tour very much. (94-2-3044)

Memo to Mr. Boardman

II. Emergency Electrical Systems

(a) Justice Building - Administrative Division advises General Services Administration has extended the completion date for the installation of the emergency generator in the Justice Building from June 11 to July 11, due to unforeseen difficulties in making the installation.

IV. Emergency Payroll Procedures

Treasury Department advised June 2, 1955, that final draft of the packaged payroll procedures is being completed. The Administrative Division and Records and Communications Division (Statistical Section) will review Treasury plan and prepare appropriate instructions for field and Seat of Government.

V. Gas Masks

Gas masks previously ordered from United States Army have been received at Quantico.

VI. Field War Plans

All domestic field offices, Legal Attaches and foreign liaison offices have submitted acceptable war plans.

VII. Destruction of Files

No system more desirable than burning has been advised. Laboratory is continuing to follow this matter.

RECOMMENDATIONS:

1. That [redacted] continue its efforts to expedite the completion of the microwave installation [redacted] completion of the installation of [redacted]

b7E

Memo to Mr. Boardman

sites near [redacted] continue its efforts to find the most  
desirable means of [redacted]

b7E

2. The Administrative Division and Records and  
Communications Division expedite their review of the Treasury  
payroll plan and issue appropriate instructions to the field.

3. The survey to locate a new relocation site in the  
[redacted] area will be given  
continued close attention.

b7E

4. All incomplete phases listed above will be followed  
closely and another report submitted July 1, 1955.

It is to be noted that the Office of Defense Mobilization (ODM) is operating an inspection team in order to determine if the 30 key agencies in the Executive Branch of government are operating in accordance with the standards set out in ODM and FCDA's instructions. Concerning this, Mr. William Elliott, Security Officer, ODM, advised Walter F. Woods, Liaison Section, on May 19, 1955, that the inspection team does not intend to "inspect" either the Central Intelligence Agency or the Bureau's facilities. He advised, however, that it is entirely possible that Joseph Musick of ODM, who is not a member of the inspection team may, during the June 15, 16, 17 period, contact the relocation sites of both CIA and FBI.

Mr. Musick has been a contact of the Liaison Section for several years and has been extremely helpful to the Bureau's Liaison representatives. His present assignment in ODM is that of Assistant to Lieutenant General Willard S. Paul, Deputy Director, ODM. According to Mr. Elliott, Musick will in all probability merely inspect the site and will in no way attempt to cause embarrassment by posing a hypothetical problem.

ACTION:

For your information.

TELETYPE

Teletype communications were adequate. Messages were handled expeditiously. We had only one delay, a six minute delay in transmitting a message to Boston because their machine was busy at the time.

In a real evacuation where we would be trying to contact all of our field divisions, our two teletype (TWX) machines most likely would not be adequate. We feel we would need at least one more TWX machine, identical to the present circuits. We would need one leased teletype circuit between the Bureau's relocation site and the Bureau's main radio installation backed up by radio teletype facilities between the above locations.

CODE

Coding and decoding facilities functioned in a very satisfactory manner. No problems nor delays were encountered.

Equipment is adequate but space is entirely inadequate, especially if additional teletype equipment is to be installed. The coding personnel would need a space comparable to but separate from that now used for teletype and coding facilities. The space should be adjacent to the teletype facilities.

TELEPHONE

Telephone communications were handled quickly and satisfactorily. The switchboard at [REDACTED] in the afternoon did not receive the ring from [REDACTED] on the [REDACTED] leased telephone line, although we did receive the ring in the morning. The ring is received on the board actually by a light on the board. No audible sound is received. This will be corrected. One of the switchboard cords became inoperative but did not impair the overall efficiency of the board. This minor item will also be corrected. 66-17381-821

RADIO

We had radio messages to send to Miami, San Juan, Chicago, and Honolulu. The message to Miami was delivered without any difficulty. We were unable to establish contact with the San Juan station and finally had to send it to San Juan through the Miami station.

We were unable to contact the Chicago station and the San Diego station (relay point for Honolulu). When it was quite evident, we could not establish contact with Chicago and San Diego by radio, these messages were transmitted to our Seat of Government installation at [REDACTED] which quickly established contact with Chicago and San Diego and delivered the messages.

b7E

Replies were received from Miami without any difficulty, from San Juan through Miami, and from Chicago and Honolulu through the [REDACTED]

BUREAU WAR PLANS (TEST)

Bureau will participate in nationwide test of relocation plans for executive branch of Government, June 15, 16, and 17, 1955. COG will relocate to [redacted] as was done May 26, 1955. You have been provided Bureau telephone and teletype numbers at [redacted] and Bureau radio address symbol for [redacted]. These numbers and address symbol should be used for replies as instructed in test messages which you will receive. Sometime during June 15, 1955, all field offices will be notified by telephone, teletype or radio of the beginning of this exercise by the following test message: "UNCAP. This is a test of communications under emergency conditions. No reply necessary re this test."

b7E

Subsequent to the above message on June 15, 1955, each field office will be notified by teletype, telephone or radio as follows: "UNCAP. This is a test of communications under emergency conditions. You should contact Bureau office at [redacted] within two hours by (telephone, teletype, radio) and indicate the amount of time required to actually make contact by the following message: "UNCAP. Re test message."

Air-tel to Albany and continental offices

Each field office should be alert for further messages bearing the code word "UNCAP" which will signify that the communication is a part of the Bureau's test program. All subsequent messages received will require action on the part of the Field as indicated in such messages.

You should not contact anyone outside the Bureau. In making replies, you should not refer to Bureau war plans. Field offices should be sure that their war plans are in shape to handle any special problems SOG may assign them during this test. Field offices should have persons on duty to receive telephone, radio and teletype messages and to transmit replies to [redacted] 24 hours a day during the entire test period until the normal close of business June 17, 1955, for SOG. Field offices which have previously notified the Bureau that they will not be able to establish radio communications during such period need not attempt to have a radio operator on duty.

*CHUCKER*  
 SUBJECT: WAR PLANS — EMERGENCY Headquarters for S.O.G.  
OPERATION ALERT 1955  
 (June 15, 16, 17)

*hybrid*  
*not*  
*brief*  
*Q*  
 At 4:25 p.m. June 10, 1955, Mr. John Airhart, Relocation Coordinator of the Department of Justice, telephonically and informally advised SA McArdle that he doubted very seriously whether or not the Attorney General's schedule would permit him to visit [redacted] at any time during the 3-day period.

Mr. Airhart also advised that the conference on captioned subject which the Attorney General has scheduled for Tuesday morning June 14, would be very informal and more in the "bull session" type of meeting.

RECOMMENDATION:

For your information.

FROM : [REDACTED]

SUBJECT: MICROWAVE CABLE

[REDACTED] today advised that they will start installing the cable from the microwave tower to the Academy on Monday, 6/6/55. They hope to have the project completed by 6/14.

The cable specified by the radio engineers of the Laboratory [REDACTED] Practically all pairs are to be utilized in operation of the microwave circuits and FM radio transmitter.

The writer discussed this installation with Mr. McGuire, Records & Communications Div., & he agreed this would be the proper thing to do at this time. 66-17381-825

RECOMMENDATION:

SUBJECT: BUREAU WAR PLANS  
 EVACUATION TEST - JUNE 15, 16 AND 17, 1955  
 CRYPTOGRAPHIC MATERIALS

## SYNOPSIS:

[redacted] for use in captioned Evacuation Test reviewed in Cryptanalysis-  
 Translation Section and forwarded to Mr. L. E. WHERRY, Communications Section today.  
 Generally similar to FBI use of [redacted]

## RECOMMENDATIONS:

1. Communications Section should arrange for all employees connected with evacuation test cryptographic operations to review cryptomaterial to be used and manuals pertinent thereto for complete familiarity with proposed methods of operation.

b7E

2. [redacted]

o previous War Plans - Emergency Headquarters for 5, 1955

Memorandum to Mr. Parsons.  
6-7-55

3. After review and checking by Communications Section this cryptomaterial should be forwarded promptly to [ ] for the attention of [ ] and his staff.

4. Records and Communications Division should provide a sub-custodian and a cryptosecurity officer responsible for duties outlined [ ] [ ] for this test operation, paying particular attention to [ ]

b7E

5. Communications Section should arrange for use of [ ] [ ]

6. Upon completion of evacuation test, cryptomaterial supplied [ ] should be forwarded promptly to Cryptanalysis-Translation Section for return to [ ]

DETAILS:

The following cryptographic material is being forwarded today separately to Mr. L. E. WHERRY, Jr., Communications Section:

1. [ ]

b7E

2.

3.

4.

5.

b7E

This cryptographic material was supplied to us June 2, 1955, for use by the Bureau in the above captioned evacuation test. One additional copy of the manual "Communications Security For CAPCOMM (KAG-8/TSEC, No. 57) is being retained temporarily in the Cryptanalysis-Translation Section.

The manual "Communications Security for CAPCOMM" sets forth communications security provisions required by the National Security Agency for this test. All employees connected with the code work in this test should be thoroughly familiar with this manual and all other cryptomaterial listed above.

Two pocket cipher pads, one for enciphering and one for deciphering, are intended for use as a back-up system. These are one-time letter pads and use an enciphering card similar to our use of letter pads with the Australian Security Intelligence Organization. Instructions are bound inside the pads.

Operation War Plan - 200 pages of the original  
 For file

June 7, 1955

Assistant Chief of Staff  
for Logistics  
Department of the Army  
Washington 25, D. C.

Dear Sir:

Confirming oral discussions between  
Mr. Ackerman of your office and Mr. A. J. Baker  
of the Federal Bureau of Investigation, it is

[redacted]  
be made available to this  
Bureau on a loan basis. A loan period of six  
months is being requested with an option for  
an extension of the loan period if such would  
be satisfactory to your office.

b7E

In the interest of effecting delivery  
of the units as early as possible, it is antici-  
pated that they will be picked up from the Signal  
Depots by FBI personnel. Appropriate arrangements  
for picking up the units will be made with your  
office upon receipt of notification of the  
availability and location of the equipment.

Very truly yours,

John Edgar Hoover

O.C. On the afternoon of June 7, 1955, I spoke to Mr. William Boleyn, of the Bureau of the Budget, who will represent the Office of Defense Mobilization and the Bureau of the Budget as the inspector of the FBI relocation test on June 15, 16 and 17, 1955.

Mr. Boleyn advised that it was impossible for him to get together with me at this time because of certain urgent deadline work at the Bureau of the Budget; however, he would call me at the earliest possible moment to arrange a meeting, probably on Thursday morning, June 9. I told him I was available at any time he could make it.

I inquired whether Mr. Boleyn had any particular problems in order that we might prepare for our discussion in advance. He said there were none--that he would be following an inspector's manual furnished him by the Office of Defense Mobilization. I told him we would be glad to look over the inspector's manual in order that we would be in a position to answer any questions. He thought this was a good idea, and arrangements were made for Liaison to pick up the manual this afternoon (June 7) so that we can go over it preparatory to our meeting on Thursday morning.

ACTION:

We will look over this manual and advise you of any problems in connection therewith.

You will be advised of the results of the conference with Mr. Boleyn on Thursday morning.

 Holloman \_\_\_\_\_  
 Gandy \_\_\_\_\_

In my memorandum of May 19, 1955, five possible relocation sites were recommended for further exploration as to their desirability. Of this group it has been ascertained that there is no space at [redacted] which can be made available to the Bureau for a relocation site. The survey of the [redacted] has disclosed that generally the buildings at [redacted] do not readily adapt themselves to office-type space. The space which could be made available to the Bureau at this time would probably not support the amount of weight which would be placed upon it by our emergency records, and communications equipment now installed at [redacted] nor does there appear to be adequate storage available now for supplies and equipment we have stored at [redacted]

b7E

Of the remaining sites it would appear that [redacted] at [redacted] is the most desirable inasmuch as this community is accessible both by railroad and good highways. It is within [redacted] where there is also a medium-size airport. It appears that there would be adequate space to house in excess of [redacted] persons and still provide working, sleeping and dining facilities. It is located on a [redacted] and would appear to offer excellent potential for radio transmission. There is a likelihood that the premises will be available at the end of this semester and could be leased at a reasonable cost. It might, however, be necessary to lease all of the property which consists of five buildings. This would be more than is needed at the present time, but if the rent is nominal it might be advisable. There is little or no commercial business in the entire [redacted] area and it is within the [redacted] sector assigned to the Department of Justice for relocation purposes by the Office of Defense Mobilization. It is an estimated [redacted]

b7E

A review of Bufiles and files of the [redacted] office has disclosed no derogatory information on the following individuals, all of whom are connected with [redacted]

[redacted] in charge of school grounds.

 b7C  
 b7E

MEMORANDUM TO BOARDMAN

b6  
b7C  
b7E

[redacted]  
[redacted]  
As was pointed out in my memorandum of May 19, [redacted]  
is a [redacted]  
[redacted] consisting of five buildings, at least two of which  
appear to be in good condition. The [redacted]  
[redacted] and information has been received  
indicating that it could be leased or purchased.

RECOMMENDATIONS:

1. It is recommended that [redacted]  
[redacted] residing in  
Washington, D. C., be discreetly contacted as to whether a lease  
arrangement could be made with the [redacted] for a  
portion of the buildings now, and an arrangement for the Bureau to use  
the [redacted] under actual emergency conditions, and if so,  
whether the Board of Trustees would object to the immediate installation  
of telephone, teletype and radio equipment in the space the Bureau  
might lease at this time. If this contact is approved, [redacted]  
will, of course, be impressed with the confidential nature of this  
inquiry and requested not to discuss the matter with anybody at this  
time.

b6  
b7C  
b7E

2. If satisfactory negotiations cannot be made for the  
[redacted] site or if on further inspection of the premises it  
would not appear adequate, additional surveys of other apparently  
desirable space will be conducted.

*I think it ok to  
telephone this to  
see whether  
it would suit  
our purpose*

*yes.*

*OK  
will return summary of  
June 6-11 which time  
arrangements for appointment  
at interview June 7 will  
be completed*

9 BUREAU  
SUBJECT: WAR PLANS - OPERATION ALERT 1955  
(June 15, 16, 17, 1955)

Auxiliary space For S.P.G.

McArdle

To insure that all personnel participating in captioned exercise are familiar with what would be expected of them in connection with their participation, the following is being set forth:

Each individual participating for the entire three-day period should be instructed to bring sufficient clothing and personal necessities with them when they come to work on the morning of June 15, to last them for the three-day period at [redacted]. In this connection, ample towels, soap, and bedding is available at [redacted]. All meals will be served at [redacted] beginning with lunch on June 15. Each division head should insure that his operations during this test period will be adequately covered at all times. To that end, [redacted] has arranged for all meals to be served over a two-hour period, including the midnight shift. Those individuals remaining overnight will be entitled to collect \$4.80 per diem less 96¢ per night for lodging furnished by the Government. These individuals will be requested to pay for their meals as they are eaten; breakfast, \$1.10; lunch, \$1.35; dinner, \$1.35. Those employees not remaining overnight will pay 75¢ for each meal eaten at [redacted]. They will not be entitled to reimbursement.

Sleeping accommodations are available for all individuals remaining overnight. Female employees will sleep on the third floor; male employees will sleep on the second floor. Specific room assignments are attached.

With the exception of the Communications Section which has set up specific working schedules covering the entire period, all other employees will be expected to work 12-hour shifts from 8 to 8. Those employees reporting to [redacted] at noon on June 15, and working the night shift may be permitted to spend the period until 8 p.m. resting in their bedroom on the recreation room.

Memorandum for Mr. Boardman

Each employee on arrival at [ ] will sign an appropriate register and will sign out on same on his return to Washington. In addition, each employee will be required to sign divisional sign-in, sign-out registers just as is done at the Seat of Government, and it will be the responsibility of the representative of each division to call the time and attendance clerk at the Seat of Government of each division on Friday morning to bring the time and attendance records up to date.

All employees should be impressed with the seriousness of this operation and be instructed to refrain from frivolity. In the event you feel that there will not be sufficient work in connection with the test operation to keep all employees busy while they are on duty, additional work should be taken from the Seat of Government. Courier Service will be available to bring files and records to and from the Seat of Government. Each employee should know where to go when they get there and be thoroughly familiar with their assignment and what is expected of them.

Office of Defense Mobilization instructions specifically set forth that families are not to visit employees participating in this exercise at the relocation site. However, there is no objection to participating employees advising their immediate adult dependents that they will be at the relocation site for the three-day period and, if necessary, in case of an emergency they can be contacted by calling the individual in charge of their division at the Seat of Government who will arrange for the employee in question to contact their dependents. b7E

In addition to those individuals who will remain for the three-day period, there will be eleven individuals from the Domestic Intelligence Division going down Wednesday morning, June 15, who will return Wednesday evening. In addition thereto, eleven individuals will proceed to [ ] on Thursday and Friday morning and return each evening. This trip will be made by [ ] leaving the 9th Street side of the Justice Building at 9 a.m., on Thursday and Friday afternoon. These individuals will not be paid per diem and can purchase their lunch at [ ] for 75¢ each day. It will be the responsibility of each Section Chief to advise those individuals who are scheduled to participate in this exercise on a rotation basis, i.e., going to [ ] in the morning and returning in the evening.

RECOMMENDATION:

Each official receiving a copy of this memorandum should appropriately instruct the personnel in his division or office re this exercise.

We received a copy of the Treasury Department's final emergency disbursement plan Thursday, June 9, 1955, at a conference held in the office of Mr. [ ] in the Department of Justice. This is a much more simplified plan than that contained in the rough draft originally secured from the Treasury Department. It is presently being studied by the Budget and Voucher Units of this Division and by the Statistical Section of the Records and Communications Division. As soon as this study has been completed, the over-all plan will be submitted to you for examination.

It was indicated by Mr. [ ] at the meeting in his office that some changes have already been proposed in the plan issued by the Treasury Department; and he stated that as soon as such revisions were available, he would pass them along.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. L. V. BOARDMAN

DATE: June 13, 1955

FROM : MR. A. H. BELMONT

SUBJECT: WAR PLANS - OPERATION ALERT 1955  
(June 15, 16, 17)Auxiliary space for S. O. G.

At 2:45 p.m. on June 13, 1955, Mr. John Airhart, Relocation Coordinator for the Department, came to see Supervisor McArdle and me.

He advised that the Attorney General's plans as of now are to leave by his automobile for [ ] upon the alert at 12:05 p.m., June 15. The Attorney General will leave [ ] about 8:30 p.m. and go to [ ] where he will stay overnight and thereafter proceed in the morning to [ ] for the NSC conference. The Attorney General plans to return to Washington the afternoon of June 16; however, Airhart believes that a further meeting on June 16 or June 17 or both will be called at [ ] and he doubts that the Attorney General will return to Washington on June 16. Rankin will go with the Attorney General to [ ] and stay there as liaison officer. Deputy Attorney General Rogers and Tompkins will go to [ ] Olney is out of town.

General Swing is going to fly his personnel to [ ] in an INS plane.

Airhart said that the Department's nucleus staff at [ ] will be increased the night of June 14 and during the morning of June 15 because he understands that ODM (Office of Defense Mobilization) will be sending messages to the relocation centers of the various agencies probably starting at 8:30 a.m., June 15. Taking this into account, I propose that we send a nucleus staff capable of handling communications and problems which may arise during the morning to [ ] to arrive there by 7:00 p.m., June 14. This would include 1 radio operator, 2 code clerks, 2 teletype operators, 1 telephone operator, Mr. Wherry to handle communications, and Section Chiefs Baumgardner, Branigan and Roach, and Supervisors Whitson and Cox with 2 stenographers to handle any operation problems that may arise. The remainder of the Bureau personnel will depart as scheduled shortly after 10:00 a.m., June 15.

EX-112

Memorandum for Mr. Boardman

As noted in Mr. McGuire's memorandum of June 13, a teletype to receive messages from Civil Defense has been installed at [redacted]. This, together with mysterious ODM problems, indicates a strong possibility that we will be receiving messages that certain major cities have been bombed out.

b7E

It is not possible for our field offices to activate their relocation sites for a test such as this because many of the relocation sites are colleges, hotels, private business institutions, etc., which will turn over their quarters to us in an emergency but not for war games. I feel the Bureau should have the protection of being able to communicate with each field office at a simulated relocation site during this test. Consequently, there is attached a teletype to all field offices instructing that a Resident Agency near the relocation site be manned during the test period on a continuous basis and that the Bureau be notified by return teletype of the Resident Agency to be used and the names of the Agent personnel who will man it and the telephone number.

Airhart further stated that the Department had received envelopes from the Federal Civil Defense Administration purported to depict bomb damage in geographical areas which envelopes are not to be opened until after the alert on June 15 at the relocation site. Airhart said he would furnish a set of these envelopes on June 14 for our assistance.

ACTION:

If you agree, personnel as indicated above will be sent to arrive at [redacted] at 7 p.m., June 14 to act as a nucleus force.

OK ✓ OK ✓

For S.O.C.

By memorandum June 10, 1955, captioned as above it was indicated that Mr. Airhart of the Department reported that the Director would meet with the Attorney General to discuss Operation Alert 1955 in the morning of June 14.

In order to be sure of the exact time of the Attorney General's conference on Operation Alert 1955, Mr. Airhart, Relocation Coordinator of the Department, was again contacted June 13. At that time Mr. Airhart checked his calendar and advised that the Attorney General's conference on Operation Alert 1955 was scheduled for 2:30 p.m., June 14, 1955.

By memorandum dated June 9, 1955, you were advised that a "courb" evacuation drill had been ordered for all Government buildings at 12:05 p.m., Wednesday, June 15, 1955. This drill was ordered by Civil Defense authorities and the Department of Justice. All employees in each building have been ordered to participate, excepting a "skeleton force."

For your information the following number of people will not participate in this drill. These people will "hover" your office as well as the offices of the Associate Director, the Assistants to the Director and the Assistant Directors, guard the space assigned to the Bureau and adequately maintain the operations of the Bureau's switchboard and teletype machines.

- 1 - Director's office - none will participate in drill
- 2 - Mr. Tolson's office - 2 will stay behind
- 3 - Mr. Boardman's office - 1 will stay behind

Walter Yeagley of the Department on the evening of June 10, 1955, advised that as part of the agenda during the June 15, 16 and 17, 1955, relocation test, there is scheduled a National Security Council meeting on Thursday, June 16, 1955, at 10 A.M. at [redacted]. He did not know just where the meeting would be held at [redacted]. He said this will be a regular NSC meeting and one of the items on the agenda is the status report on Continental Defense Planning. He pointed out that the IIC and the ICIS have submitted a status report on this subject and it is possible, therefore, that the Director might be invited to attend. He said that notification to attend the NSC meeting will probably be made on Wednesday, June 15, 1955 during the alert. He said there was no indication so far that the Director would be invited but he wanted to let us know in advance of the possibility.

This item concerns the semiannual status report on Continental Defense Planning which is the responsibility of the National Security Council staff. A joint report was submitted several weeks ago by IIC and ICIS covering the interests of those two agencies. IIC has only a small interest as the majority of the planning is the responsibility of the Defense Department. Our interest concerns the status of the plan to use detection devices at certain U.S. ports of entry to detect the entry of fissionable material; and the fact that we have extended our coverage of Soviet and satellite officials in accordance with the desires of the National Security Council. We consider it unlikely that the Director will be invited to attend this meeting.

On the morning of June 14, 1955, Mr. William Boleyn, Bureau of the Budget, who will represent Office of Defense Mobilization (ODM) as the inspector for captioned exercise at [ ] on June 15, 16, 17 called at the Bureau and sought information relative to whether the Bureau had an established Chain of Command, the sufficiency of our records at the relocation site, and the extent of Bureau war planning.

Mr. Boleyn was informed that the Bureau did have a Chain of Command both at Seat of Government and at the field level and that each Division at the Seat of Government had a Chain of Command within the Division. A general summary of the records available at Quantico was given to Mr. Boleyn by Mr. Belmont.

Mr. Boleyn was also given information as to the extent of our war planning both at the Seat of Government and in the field. This briefing included an outline of the general format of field office war plans including Chain of Command, relocation site, communications, confidential records, and in addition thereto he was informed that all individuals at all levels who had specific assignments in connection with the Bureau war plans were familiar with these assignments and that they would need no last minute briefing as to what was expected of them in an emergency.

Mr. Boleyn appeared to be quite pleased with the extent and completeness of Bureau war planning and stated that his report would reflect very favorably on our war planning.

Section Chiefs Roach, Branigan and Baumgardner, plus Agents Whitson and Cox, as well as Secretaries Martis and Tweedon reported to [redacted] between 7:00 and 7:30 p.m., June 14, 1955. The only pertinent activity which occurred during the night of June 14, and the early morning of June 15, was as follows:

At 10:19 p.m. the Federal Civil Defense Administration teletype machine was turned on at the request of the American Telephone and Telegraph Operator. The operator issued instructions that the machine was to be kept on throughout the night, which was done.

At 10:25 p.m. FGDA at [redacted] requested the Bureau to acknowledge a message and asked if we were reading them clearly. Their message was acknowledged at 10:40 p.m. through the use of proper code and symbols.

In connection with the relocation of key personnel on Wednesday, June 15, 1955, Mr. Philcox of Liaison has confirmed arrangements with the White House. He has been invited by the White House to accompany key personnel of the White House staff to the President's relocation site at Camp David, Thurmont, Maryland. Philcox is leaving Washington at approximately 12:05 p.m., June 15, 1955, and proceeding in his personal car to Camp David. He will call immediately upon arrival there. While at Camp David he can be reached by merely calling the White House switchboard. The person making the call should not ask for Camp David but should merely call the White House switchboard and ask for Mr. Philcox and the caller will automatically be connected with him at Camp David.

The White House personnel are planning to leave Camp David to return to Washington about noon, Friday June 17, 1955, at which time Philcox will return to the Bureau.

ACTION:

None. This is for information.

Lieutenant General Willard Paul, USA (retired), Assistant to Doctor Flemming, Director, Office of Defense Mobilization (ODM), advised Walter F. Woods, Liaison Section, on June 13, 1955, that some time Wednesday afternoon, June 15, there would be a meeting at [redacted] ODM relocation site) of the Inter-assembly Group. This group, organized for this test will consist of the President and approximately 25 cabinet officers and high-ranking military personnel. The President will preside at this meeting and, according to General Paul, Assistant Attorney General Tompkins will represent the Department of Justice. The purpose of this meeting is not known to General Paul but he assumes that it is being held to draft problems for various agencies during the test. He also assumes that the question of availability during the three-day period of key government officials will be stressed at this meeting.

Mr. William Elliott, Security Officer, ODM, advised Woods that Dr. Flemming had issued specific instructions to those individuals working on hypothetical test problems to not, under any circumstances, reveal to anyone the problems to be posed. This includes inquiries from the White House, as it is Dr. Flemming's opinion that this is a test for every agency to see where if any "loop holes" exist. Mr. Elliott advised that it is contemplated that the President will remain in [redacted] for dinner on Wednesday and then proceed directly to Camp David. Mr. Elliott informed that 36 cabinet officers and military leaders will proceed to [redacted] Wednesday by helicopter.

It was discreetly ascertained that officials of ODM have no knowledge as to the simulated dropping of a bomb on Washington, D. C. at 2:33 p. m. on June 15, but that such a possibility should not be overlooked. Mr. Elliott advised that Dr. Flemming is extremely enthusiastic about this test and is most anxious to ferret out any flaws in the war plans of any agency. Mr. Elliott advised that to his knowledge the test problem is predicated on the theory that the continental U. S. has been bombed and not in problems wherein the U. S. may be at war abroad.

RECORDED - 24

66-17381-850

Mr. Elliott has been asked to keep Bureau liaison advised of any pertinent developments of interest to the Bureau.

Mr. James O'Donnell of the Chesapeake and Potomac Telephone Company today advised Mr. McGuire that the Bureau's order for a new teletype machine and circuit to be installed [redacted] was being expedited and had been planned to be installed today; however, in view of the last minute rush by other Government agencies the Telephone Company was pressured for personnel and time. O'Donnell told me they had the equipment earmarked for us and would not be able to get it in today and wondered if it would be satisfactory to bring it down over the weekend and have it installed as they want to give the Bureau a top priority order. O'Donnell stated he could have it delivered by a crew [redacted] between 3:00 and 4:00 p.m. tomorrow, Saturday, and have it completely hooked up by 7:00 o'clock.

I told him by all means to do this. I subsequently advised [redacted] in order that the Communications Officer [redacted] can be advised that there will be work done down there by the Telephone Company on our teletype equipment late tomorrow afternoon.

All employees participating in captioned exercise, when boarding the Bureau bus and when entering the FBI Academy at [redacted] will be required to identify themselves with the regular Bureau credentials carried by Special Agents and officials, by radio operators' credentials, and by the clerical identification passes carried by other employees. Certain of the plastic clerical identification badges have the red seal of the FBI on them whereas others have the blue seal. \*

There are 399 red-seal clerical passes now in existence at Seat of Government and Washington Field Office. These red-seal passes were designed to comply with the request of the Civil Defense Agency of Washington, D. C., at a time when there was no assurance that Bureau personnel would be permitted freedom of movement during a period of emergency and Mr. Fondahl, Director, Civil Defense, Washington, D. C., agreed that Agents' credentials would, of course, be honored and clerical employees carrying badges with a red seal thereon would also be permitted freedom of movement during a period of emergency.

Federal Civil Defense has since requested all local Civil Defense organizations to honor all Bureau credentials and clerical passes as long as the photograph of the bearer and the signature of the Director is affixed thereto. Mr. Fondahl was recently contacted relative to the red-seal badge situation and requested that it be continued. All SACs have contacted their local and state Civil Defense directors and have reported that Civil Defense agencies will honor Bureau credentials and passes of all kinds.

RECOMMENDATION:

For information.

Liaison Agent Bates made discreet inquiry on the morning of June 14 of Mr. Lester Boykin of Federal Civil Defense Administration (FCDA) regarding sealed instructions to the various agencies. Mr. Boykin stated he would check. He called back and said that one set of instructions was sent to Mr. John C. Airhart of the Department of Justice but there were no problems in these instructions for the FBI directly. He asked if the Bureau desired anything from FCDA. He was advised that we did not. Boykin suggested that we could obtain the instructions from Mr. Airhart of the Department.

No further request was made of Boykin. Most of the FCDA officials who are normally contacted are, at the present time, at

OFFICE OF DIRECTOR  
FEDERAL BUREAU OF INVESTIGATION  
UNITED STATES DEPARTMENT OF JUSTICE

June 14, 1955

Mr. Belmont called and advised  
as follows:

Relative to Operation Alert--1955,  
it is suggested at the Attorney  
General's Conference this  
afternoon that the Director may  
wish to stress the importance of  
the Department's notifying our Liaison Agent  
at [redacted] SPECIAL AGENT J. D. DAUNT)  
promptly of the simulated authority to launch  
the Emergency Detention Program and the State  
Department authority to simulate the detention  
of enemy diplomats. Unless we receive this  
authority promptly on the afternoon of June 15th,  
we will not be able to send our simulated messages  
to our Field Offices.

Mr. Belmont states that he mentioned this to  
Tompkins and Yeagley this morning.

By letter dated May 16, 1955, to the Heads of All Departments and Agencies, the President directed that each department and agency of the Executive Branch of the Government cooperate fully with Civil Defense authorities in compliance with their instructions concerning Civil Defense exercises. Mr. Andretta of the Department by letter dated June 3, 1955, advised that plans were being made for the evacuation of the Justice Building with a "curb" drill in compliance with the Presidential Directive mentioned above. The Department of Justice furnished the Bureau on June 8, 1955, a copy of its instructions concerning evacuation of all personnel in the Justice Building. The instruction states that a three to five minute duration of the Building air raid Klaxon Horns would be sounded and that all personnel would be requested to leave the building via the shortest route to the nearest exit. This is to be done in an orderly manner after all rooms are locked and secure. This order stated that personal belongings should be carried or secured at the time the drill occurs and, further, that the elevators should not be used except by the handicapped persons.

Further instructions from the Department are as follows: Personnel who ride in automobiles parked within the Justice Building are requested to assemble in or near these cars. The engines are not to be started and the automobiles should not be moved. Drivers or riders who have passenger space available should invite other personnel to their cars so that each car will have a full load of passengers assigned. The "all clear" signal, according to the Department instructions, has been eliminated. Therefore, the waiting in the assembly areas should continue until the Building has been completely evacuated. It is estimated that a reasonable waiting period would be ten to fifteen minutes. In case of inclement weather the Building personnel should proceed to shelter areas within the Building as has been done on previous drills.

The Department has advised that this drill will actually commence with the sounding of the horns in the Building at 12:05 p.m. Wednesday, June 15, 1955. In accordance with the above instructions all personnel should be instructed to proceed via the stairs to the nearest exit and assemble between the curb and the building and wait

o Bureau War Plans - Emergency Headquarters 152506.

Memorandum for the Director

per suggestions above. Those with cars in the Building should comply as indicated above and in this latter group it will not be necessary for them to go to the curb.

In order to properly discharge our responsibilities, complete compliance with the above suggestions appears necessary. As a result it will be necessary to temporarily suspend all Bureau tours.

The Department has advised that the retention of skeleton crews in phases where absolutely necessary is permissible.

RECOMMENDATIONS:

- (1) That the above suggestions be complied with.

*all asst Directors advised 6/14 by Director approved*

(2) If the above recommendation is approved, each Assistant Director as well as the SAC, Washington Field Office, will issue the necessary instructions to all personnel under them. These instructions should be issued in compliance with the instruction sheet which is attached, a copy of which is being provided for each Assistant Director as well as the SAC at Washington Field Office.

*all asst Directors are issuing instructions 6/14*

(3) That all tours be suspended for a period of time during this test so that none of the tourists will be in the middle of a tour at the time this test drill takes place.

*Tours suspended from 11 to 1 - 6-15-55 per J.D. McKinnis JDL*

(4) That the attached memorandum to Mr. Andretta of the Department be approved and forwarded. This letter answers his inquiry as to "What extent the Bureau intends to participate in this exercise."

*approved + forwarded 6-13-55 per A.B. Fipp JDL*

(5) We are contacting each Assistant Director to determine what skeleton force in each Division will be necessary and a separate memorandum will be submitted reflecting this.

*memo 6/13/55 to Directors re skeleton force*

**CIVIL DEFENSE**

**TO:** All FBI Personnel

**SUBJECT:** Evacuation of Building, Operation Alert 1955

In cooperation with the National Civil Defense authorities test exercise on June 15 and 16, 1955, the following plan is provided for the evacuation of FBI personnel from the buildings to which they are assigned:

Upon hearing the alert signal (steady blast, of building Air Raid Klaxon Horns) which will be of 3 to 5 minutes duration, all personnel are requested to leave the building via the shortest route to the nearest exit. This should be done in an orderly manner, after rooms are locked and secure. Personal belongings should be carried or secured. Elevators should not be used except by handicapped persons.

Upon leaving the building, proceed at once to the assembly area determined by the exit used in leaving. (For example - Justice Building)

<u>EXIT USED</u>	<u>ASSEMBLY AREA (Between Curb &amp; Bldg.)</u>
9th & Penn Doors )	9th St., between Penn & Const Avenues
9th Street Gate )	
9th Street Door )	
Center Door Penn Ave )	Penn Ave., between 9th and 10th Sts.
10th & Penn Doors )	
10th Street Gate )	10th St., between Penn & Const Avenues
10th & Const Ave Doors )	
Center Entrance Const Ave )	Const Ave between 9th & 10th Streets

The "All Clear" signal has been eliminated. Signals for this will not be given by general alarm systems since the release from this condition is dependent upon the radioactive fallout in a particular area. Therefore, waiting in assembly areas should continue until the building has been completely evacuated. A reasonable waiting period would be 10 to 15 minutes.

In case of inclement weather, personnel will proceed to shelter areas within the building as has been done on previous drills.

LIST OF EVACUEES

Attached hereto is a list of the evacuees of the Records and Communications Division as of this date. This list includes all employees of the Division who would be required to go to [ ]

In connection with the Operation Alert scheduled for June 15, 16 and 17, 1955, only 26 employees of this Division will go to [ ] All employees of the Division scheduled to go to [ ] on June 15 will report upon receipt of notification through the chain of command of the Division to the 1500 corridor in this building in order that they may be checked off the transportation list and assigned space in Bureau transportation or checked off as proceeding to [ ] in personally owned vehicles. (There will only be one personally owned car used in the June 15 test in this Division transporting Mr. DeLoach, [ ]) All other Divisional employees on the evacuation list are to report to the 1500 corridor to be checked off the transportation list, and those not scheduled to go to [ ] will be instructed to return to their desks.

However, in view of the fact some of our employees are physically located in the Identification Building, we will have them on receipt of notification of evacuation report to the office of Assistant Director Quinn Tamm in order that they can be accounted for and then immediately return to their duties.

In the Communications Units in this building, it will be impossible to have all of those on the evacuation list who are not going to [ ] leave their units just for the purpose of being checked off in the 1500 corridor as to do so would deplete the units at a critical time when they are needed. Instead, we will account for the whereabouts of all personnel on the evacuation

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. L. V. Boardman

DATE: June 14, 1955

FROM : A. H. Belmont

SUBJECT: WAR PLANS - OPERATION ALERT 1955

Auxiliary space for S.O.G.

In accordance with the Director's request, there is attached hereto a time table showing the telescoped time for Operation Alert 1955. On page 2 of this time table reference is made to Annex No. 4 which reflects the type of information which will be furnished by Civil Defense during Operation Alert 1955.

The Department furnished to us this afternoon envelopes from Civil Defense which are to be opened at the relocation site. These are being given appropriate attention. These purport to reflect information as to bombing damage resulting from attacks during the alert.

SUBJECT: BUREAU WAR PLANS - EMERGENCY HEADQUARTERS  
EVACUATION TEST - June 15, 16, 17, 1955  
CRYPTOGRAPHIC MATERIALS

Reference my memoranda to you captioned as above dated April 25 and May 24 last.

I received a telephone call at 11:00 A.M. this morning [redacted]

[redacted] You will recall that above-mentioned coding material is to be used by the Bureau in communicating with the relocation sites of certain other critical agencies.

Mr. Boak informed me that the material would be delivered at approximately 11:00 A.M. The material will be delivered to Mr. Downing in the Identification Building.

RECOMMENDATIONS:

(1) That the Cryptanalysis-Translation Section check these materials to see if they are in order or if any special instructions need to be given to the Communications Section regarding their use.

[redacted] before the June test.

Inasmuch as there is a possibility that the Office of Defense Mobilization (ODM) and Civil Defense officials in any given area may contact a Bureau field office for information or present a problem to the field office, it is deemed desirable that each field office be so advised of this possibility and instructed that should a properly authenticated individual from ODM or Federal Civil Defense Administration (FCDA) present a question or problem the office should be alert to exercise good judgment and advise the Bureau at the relocation site of all such contacts or problems presented.

Attached is a teletype to all continental offices and a radiogram to Anchorage, Honolulu and San Juan instructing them as above.

RECOMMENDATION:

That the attached teletype and radiogram go forth.

Attached is a draft statement, dated June 1, 1955, received from the Executive Secretary of the NSC pertaining to the emergency relocation plan of the NSC. It is to be considered by the NSC on June 9, 1955.

It is noted that the plan states that under conditions of attack emergency, the NSC will be convened by the President on such occasions and at such places as he may from time to time elect. The NSC members will proceed to the relocation sites of their respective agencies. The relocation sites of the NSC and NSC-related agencies are listed on pages 2 and 3. It is noted that the FBI will relocate to [redacted]. The NSC Planning Board members and advisors will also proceed to their respective agency relocation sites and will be available for reporting on call to such location as the Chairman of the Planning Board may from time to time designate. The NSC staff, under attack conditions, will relocate to the NSC staff site at [redacted]. The Director of the Office of Defense Mobilization will insure that this plan for the NSC is coordinated into the over-all emergency relocation plans.

ACTION:

The foregoing is for your information. There is no action to be taken by the Bureau in connection with this top secret document.

Enclosure

Memo by Mr. [ ] dated 6/8/55 recommended that an attached circular be mimeographed and furnished to the evacuees who would be at the [ ] 6/15-17/55. The Director has inquired "But why do we wait until the last minute to do this. This reached me on June 13."

This memo was stamped into the Training Division at 4:28 PM, 6/8. The circular refers to the fact that Bureau movies will be shown on Wednesday and Thursday evenings. I desired to check with Mr. [ ] concerning what movies he intended to use. I was unable to do this immediately because of the need for handling certain details in connection with the [ ]. On 6/11 I ascertained that the 3 movies [ ] plans to use are (1) House on 92nd Street, (2) Street with No Name, and (3) Walk East on Beacon. I telephonically authorized [ ] to mimeograph the circular and the printing was done on Monday night, 6/13.

I regret the delay involved and will exercise every effort to prevent a recurrence.

For record purposes when the Bureau was considering the possibility from a cost standpoint of having a relocation site off the premises of [REDACTED] but in the vicinity of [REDACTED] we had the telephone company make a rough estimate of cost and construction that would be involved in the event we were to have a duplicate set of all communication devices some where within the [REDACTED]. Colonel Bliss checked into this and advised that there was need for considerable construction, laying of cables and the like unless we moved into some building or store practically adjacent to [REDACTED]. His rough estimate was [REDACTED] just to duplicate our requirements at [REDACTED].

[REDACTED] Bliss was advised that nothing should be done on this matter unless he hears specifically to the contrary from the Bureau.

No further action is being taken on this matter in view of the nonfeasibility of entering into this type of arrangements in view of the tremendous expense involved.

The attached clipping refers to the Governmentwide "Operation Alert 1955," set for June 15, 1955. Individuals receiving this memorandum should immediately give consideration as to what papers, documents, and equipment must be taken to the evacuation center and the functions which will be performed by the different individuals from the Investigative Division who travel to the evacuation site. This will be discussed at a conference in the near future.

Bureau War Plans - Emergency Headquarters for S.O.G.

## President to Head Evacuees June 15

# Government to Quit Capital for 3 Days, Operate Secretly in Civilian Alert Test

By Warren Unna  
Staff Reporter

At noon of June 15, for the first time since the British captured Washington in 1814, the National Government will desert its headquarters.

The President, Cabinet members, agency heads and some 15,000 Government employees from 30 agencies will be evacuated to emergency sites up to 300 miles away. The movement will be part of the Federal Civil Defense Administration Office of Defense Mobilization "Operation Alert 1955."

The Government will be gone from the Capital for three days. Decisions bearing on wartime functions will be made from out of town. Cabinet Secretaries, used to Foxhall road mansions, and Sheraton-Park Hotel suites, will be spending their nights in makeshift quarters, some of them on bunks in tents.

Employees will leave in pre-arranged car pools along designated routes. Some must look forward to a 10-hour drive before they reach their new "office." Wives and children won't know where the family breadwinners are. They will simply have to wait for a phone call saying, "Don't worry. I'm all right."

Half the emergency sites are on Government property, such as on military camps and in Federal office buildings. Others are on university and college campuses and in resort towns which possess sufficient housing facilities. Some new construction will be utilized, as in the case of the so-called "Underground Pentagon," which was blasted out of a mountain-side near Camp Ritchie, Md., some time ago.

Much publicity was given to the superior bomb shelter built under the White House during its reconsecration. But today's nuclear and thermonuclear bombs are considered such a threat that several alternate out-of-town sites have been set aside for the President.

Sites Widely Separated

Each Government agency has been allocated a sector, in an area varying from 50 to 300 miles from Washington. Some

sectors will encompass several counties. Where an agency's functions demand it, the sector will be even larger. Top agencies, as in the case of the White House, will have alternate sites. Each sector will be far enough removed from the others to prevent joint casualties from the same bombardment.

Advance "nucleus" crews from various Government agencies have been readying the emergency sites since May 2. Local editors and radio station managers have been alerted to expect an influx of "visitors." They have been told that their voluntary cooperation will safeguard Government leaders and keep their communities from becoming target sites should Washington have to be evacuated on a no-flying basis.

The President is known to have a closed-circuit television network for communicating with his chief advisers. But facilities at other emergency sites have been described by ODM as "pretty austere" so far. Smaller communities up to now have never had to handle the communications load required in Washington.

Commandeering Authorized

Many of the areas chosen are regarded as self-sufficient in providing food. The ODM has prepared official letters empowering the bearers to commandeer certain university housing accommodations at specified rents in event of an emergency.

"Operation Alert" represents the first time the Government has identified its essential wartime services and earmarked them for evacuation. Not all these priority-rating services are so obvious as the Central Intelligence Agency and the Atomic Energy Commission. The Postoffice Department is considered essential to maintain the delivery of Government mail and the dispersal of such items as social security checks; the Treasury for the printing of currency.

The military nonessentials, which won't be bothered by the evacuation, include the American Battle Monuments and Fine Arts Commissions.

morning if there were an attack on the United States tomorrow."

ODM had a few hundred of its personnel participate in last June's Nationwide Civil Defense test, when President Eisenhower took to the White House bomb shelter.

About 1200 persons participated in a small ODM evacuation last November.

Congress, Court to Stay

This time, ODM wants to see how well the Government's agencies could carry on their wartime functions from emergency sites and how well they would be able to maintain Civil Defense functions at the same time.

Notably missing among the evacuees in the June 15-17 test will be members of Congress and the Supreme Court. Proposals have been made for their departure from the Capital in an emergency, but as yet there has been no indication of acceptance.

"Although 'Operation Alert's' evacuation will be confined to wartime Government functions, ODM points to the need of preserving industrial functions during such an emergency as well.

One major national oil company was laudably cited for having spent \$500,000 in setting up an evacuation headquarters, complete with vital production and financial records and an emergency food supply. The oil company has even outlined a succession of officers in case its top men should become casualties.

The 15,000 or more Government persons taking part in "Operation Alert" will represent a cross-section of their agencies. As one ODM official explained: "You can't operate only with generals."

Some activity will continue in the "evacuated" Government agencies back in Washington, but only that which would normally be curtailed during wartime.

Of those who are scheduled to go, and who will bring their overnight "bags" down to the office June 15, many are beginning to plan for their families in case of the real thing.

One ODM official has instructed his wife to head for a certain town so he would know where to find her during a mass evacuation. And she, in turn, has been instructed to communicate with him via a police precinct in an area near where he expects to be.

To date, there is no arrangement for spitting key Government personnel out of town ahead of any general evacuation. An alert is expected to reach all alike, and agency employees, in the event of actual evacuation, have been told to get to their posts when they can.

One of Five Plans

Although the Nation-wide Civil Defense drill is scheduled to last only 36 hours, ODM is having Government agencies remain away a full three days. Agency heads have also been encouraged to leave some personnel behind at the evacuation centers after the three days are over so they can become familiar with the sites.

Operation Alert will come under "Plan D-minus," one of five ODM readiness plans. Defense Mobilizer Arthur S. Fleming described it as a plan "we would put into effect, to

In connection with Operation Alert 1955, it is very necessary that Liaison as a whole, and Supervisor Woods in particular, maintain very close liaison prior to noon on June 15, 1955, in order that we may be aware of any problems connected with Operation Alert 1955 which will effect the Bureau. We do not want to be in a position where we will be confronted suddenly with problems during the alert where we could have anticipated the problem.

*in its place*  
ODM has a section concerning problems to be posed. Mr. Woods should be very alert as to this. Mr. Boleyn of the Bureau of the Budget passed a remark that there may be a simulated dropping of a bomb on Washington at 2:33 P.M. on June 15. We should try to find out if this is contemplated and just what problem there is posed for this.

*us in*  
It is most necessary that we anticipate our problems and be in a position to meet them promptly.

Ticklers: Mr. Woods  
Mr. Belmont

For record purposes, [redacted] advised at 3:30 p.m. today that the Telephone Company officials from Richmond were presently at [redacted] with a teletype machine designed to receive only, said instrument having been ordered installed at [redacted] by Mr. McRoberts of Civil Defense. [redacted] desired confirmation as to whether the instrument should be placed in service.

This was new information to me and accordingly the Domestic Intelligence Division was asked to make a check. Mr. Belmont subsequently advised my office that inquiry had been made of the Department and advice received that Civil Defense had ordered the instrument installed at the FBI building in order that we could receive disaster information by teletype from Federal Civil Defense.

b7E

Accordingly, [redacted] was authorized to tell the Telephone Company officials to go ahead and install the instrument in the teletype room [redacted] since we have a shortage of pairs into our building [redacted]

Remymemo June 11, 1955, reflecting that Director might receive an invitation to attend a National Security Council (NSC) meeting scheduled for morning of June 16, 1955, at [redacted]

Liaison Agent Sanders this afternoon (June 13) ascertained from Pat Coyne of NSC that an invitation, at the direction of the President, is being extended for the Director to attend a National Security Council meeting to begin at 10:00 a.m., Thursday, June 16, at [redacted] and that the same invitation covers a meeting to be under the auspices of the Office of Defense Mobilization at the same place, at 9:30 a.m. the same date. This latter meeting is a briefing by ODM regarding the relocation exercises. According to Mr. Coyne, the Director will not need any information for the ODM briefing.

Mr. Ralph Stöhl, of the Office of the Secretary of Defense, advised Liaison Agent Sanders that the people attending the conferences should arrange to get to [redacted] by 9:00 a.m., inasmuch as the building in which the conferences will be held is [redacted]. He further advised that the Office of the Secretary of Defense has made arrangements for the individuals attending the conferences to be assigned an escort upon arrival at the gate to take them to the conference building and subsequently back to the gate. The area is, of course, a highly classified area and under the complete control of the Military.

Memo to Boardman from Belmont

June 13, 1955

Re: WAR PLANS  
OPERATION ALERT 1955 (June 15, 16, and 17)

b7E

The only agency which plans to have relocation quarters at [redacted] to our knowledge, is Selective Service. If you desire, we will check with Selective Service to see the extent that they are going to participate in this relocation test.

ACTION:

The brief for the Director's use at the National Security Council meeting will be ready this evening.

ADDENDUM - AHB:LL - June 13, 1955

In accordance with the Director's instructions, Liaison Agent Edward S. Sanders (Liaison with NSC) will meet the Director's car at the gate at [redacted] on Thursday morning, June 16, to be of assistance to the Director.

OK ✓

Director, FBI (66-17380-77)

PERSONAL ATTENTION

WAR PLANS  
OPERATION ALERT 1955

As part of the Bureau's participation in Operation Alert 1955, the following problem is being presented. The purpose of this problem is to test communications to the [redacted] as well as the secret ink operations of the FBI Laboratory under emergency conditions.

b7E

Under the conditions of this problem, the Philadelphia office will simulate holding a person suspected of being an enemy espionage agent, in whose possession was found a typewritten letter suspected of bearing secret writing. Enclosed is the typewritten letter allegedly obtained by the Philadelphia office. This letter should be held pending further instructions.

Within the next few days you will receive a teletype from the Bureau captioned "UNCAP," requesting that you forward this typewritten letter to the FBI Laboratory for secret ink examination. Your letter or airtel, which should start with the code word "UNCAP," should state that you are holding a person suspected of being an enemy espionage agent and that the typewritten letter was found in his possession. Your letter or airtel should request an examination for secret ink and should be addressed to the [redacted]

Attention Assistant Director D. J. Parsons.

ORIGINAL FILED IN

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. Parsons

DATE: June 6, 1955

FROM : R. L. Millen

SUBJECT: BUREAU WAR PLANS - COMMUNICATIONS  
(Bufile 66-17385)~~EXCLUDED FROM HEADQUARTERS FILES~~

In accordance with instructions from your office, Supervisor A. J. Baker of the Radio-Electrical Section conferred with Mr. Hoy J. Walls of Immigration and Naturalization Service (INS) concerning arrangements for radio contact between FBI and INS during the forthcoming evacuation exercises.

The call signs FIG 1 for the Departmental relocation site at [redacted] and FIG 2 for the [redacted] and FIG 3 for the [redacted] were agreed upon. The call signs were suggested by Mr. Walls and have no significance, having been arbitrarily chosen. Other combinations of letters would serve equally as well; however, inasmuch as those suggested by Walls did not conflict with any current FBI call signs, no alternate was proposed.

Since it is anticipated that FBI frequencies suitable for communication over the distances involved will be in use during FBI traffic, Mr. Walls was requested to advise what frequencies he could use to contact the FBI station. Walls suggested 4617.5 kc and 2822 kc for day and night operation, respectively. These frequencies were agreed upon since they are proper for a circuit of this length and inasmuch as their use would result in our regular frequencies being kept clear for FBI exclusive use.

As you know, we do not normally maintain radio contact with INS and these arrangements are for the duration of the evacuation exercises only. The INS emergency station [redacted] will function as a radio contact for the Attorney General during the exercises.

These arrangements have been discussed with Mr. McArdle of the Domestic Intelligence Division and there is attached a proposed memorandum to Mr. John A. Althart, the Department of Justice Relocation Coordinator, confirming the above agreements.

RECOMMENDATION:

That the attached memorandum be forwarded to Mr. John A. Althart, Relocation Coordinator for the Department of Justice.
